VOLUME 42

FOR THE UPBUILDING OF CAMERON AND MILAM COUNTY.
CAMERON, MILAM COUNTY, TEXAS, THURSDAY, OCTOBER 16, 1919.

NUMBER 24

CAMERON AFTER AN INTERURBAN

President of Central Texas Electric Railway Will Visit Commercial Club.

At the Directors meeting of Cameron Commercial Club, held Friday night, Oct. 10th, 1919, a roll call showed the following present:

Officers: Robt. McLane, President; W. W. Chambers, Vice-President; T. N. Herring, Secretary.

Directors: John E. Mangum, J. W. Coleman, Geo. T. Graves, R. H. McIntosh, T. S. Henderson, W. G. Gillis, J. D. Dobbins, Monta Thomas, C. W. Lawrence, J. T. Parma.

Committee Chairmen: T. F. Hardy, J. Garrison, Giles L. Avriett, S. A. Cottle, Dr. James Watson.

Minutes of previous meetings were read and after discussion of the elimination of the three standing committees, and the passing of a motion by T. S. Henderson to re-appoint same, they were adopted. The committees in question being Free Delivery and Rural Route, Agricultural and Immigration, Convention and Accommodation.

J. Garrison brought up the matter of a mud hole in the street near the Santa Fe depot, leading from the passenger station to the freight house. The matter of whose jurisdiction this property came under, whether the city or the railroad company was discussed, and disposition was made of same by instructing the civic improvement committee to bring same to the attention of the city council.

A report on the clean-up campaign was heard from Mr. Avriett, who explained that after considerable difficulty he has been able to procure a man with a wagon and had him at work. He also related that the cost for the job would be \$70 and the city had arranged to pay half this amount and the balance had not been provided for. The question of the Commercial Club paying the other half for the clean-up campaign came up for discussion. Upon motion from W. W. Chambers action was deferred for two weeks until the council had held another meeting.

The question of membership came up for discussion and it was thought advisable for the membership committee to make a drive for new members. T. S. Henderson carried a motion that the Secretary furnish this committee with a list of the present membership as a guide to proceed with their work.

R. H. McIntosh brought up under the head of new business the possibility of locating in Cameron an institution that was provided for by the last legislature, same being a home for dependent and neglected orphan children. He stated there was appropriated \$100,000 for the erecting of this institution. The matter was discussed and met with hearty support. The President appointed Mr. McIntosh as Chairman of a committee to make further investigation and to take steps necessary to locating same in Cameron. The chairman was also given authority to select the other members of the committee.

A letter was read by the secretary from Mr. O. A. Ryfle of Waco, who is the head of the Central Texas Electric Railway Company, which organization is going to build an Interurban from Waco to Temple. The letter was in answer to a communication from the Cameron Commercial Club relative to an extension of this line to Cameron. Mr. Ryfle outlined that he already had Cameron in mind as he knew that it was the liveliest town in Texas and was made up of men who did things. The communication was discussed and every member present heartily endorsed the project. A motion carried to invite Mr. Ryfle to attend the next directors meeting of the club to be held Friday night, October 17th.

The name of J. F. Braum, manager for the Louis S. Pierce Dry Goods Store was proposed for membership and he was duly elected.

E. A. Wallace appeared before the directors representing Mrs. Roy E. Smith, district census supervisor of Hillsboro. Mr. Wallace said she was anxious to have a number of appli-

TAX VALUATION IN MILAM 18 MILLIONS

Report From Assessor, Miss Leila Wooley, Is Approved By Commissioners' Court.

The tremendous task of completing the 1919 tax rolls of Milam county, compiling them, and submitting them to the Commissioners' Court has been completed by Miss Leila Wooley.

This work was finished only a few days ago and was submitted at last regular session of this body October 1st, and same was duly approved and the assessor given a vote of thanks for her efficient work.

The report of the tax assessor shows the property valuation in Milam county for 1919 to be eighteen and a half million dollars.

The rate of taxation is as follows: State, 75 cents on \$100 valuation. County, 63 cents on \$100 valuation. Total State and county rate on \$100 valuation being \$1.38.

There are 75 schools in Milam county levying special school tax ranging from 15 to 50 cents in addition.

Nineteen road districts in Milam county levying special tax for good roads from 40 cents to \$1.90 in addition. Eleven of the road districts have levied the tax this year by special election to build good roads and there are others being created.

Miss Wooley, with the experience she has had in this office, was enabled to render a very fine report, it was not only neat in appearance, showing the work of an artist in this line, but was correct in every detail.

DR. R. L. HOWELL MAKING SURVEY

Dr. R. L. Howell, representing the State Health Department of Austin, is in the city and has taken up his work of making indexical health survey of Cameron. Dr. Howell's first work is an examination of the school children, which work he has about completed and owing to the excessive rains he will likely be delayed in his work over the city. Dr. Howell is a very affable man and has done much among the school children in advising them of their defects, where found. As soon as the weather will permit the doctor, with an engineer, who will also be supplied by the State Health Board, will take up the work of a house to house survey.

Dr. Howell reports that in conversation with Dr. C. W. Goddard, State Health Officer, at Austin yesterday, he urged that the people over the State start a real clean-up campaign as soon as the rains have stopped. Dr. Goddard said the need for such was more imperative now than ever before to prevent an epidemic of influenza and some other serious malady.

Applications for enumerators in Milam county and suggested that the Commercial Club take the matter in hand. After discussion a motion carried for the President and Secretary to induce a number of applicants for the place.

A motion also carried that W. G. Gillis mail application blanks and forms to parties on the other committees in the Cameron precinct.

Later Advice.

The following letter from Mr. Ryle received on Wednesday to the Commercial Club will be of interest:

Waco, Texas, Oct. 14th.
Mr. T. N. Herring, Sec'y.,
Cameron Com. Club,
Cameron, Texas.

Dear Sir: In response to your communication of the 11th inst., I wish to thank you for your courteous invitation to be present at your regular meeting on Friday evening, October 17th, and regret that it will be impossible for me to attend this meeting but will be glad to be with you on the following Friday, October 24th.

Again thanking you for your courtesy in this matter, and looking forward to seeing you on the date above mentioned, I beg to remain,

Very truly yours,
O. A. RYFLE,
President Gen'l Manager.

ATTENTION FORMER SOLDIERS AND SAILORS

The U. S. census will be taken in January, 1920. The county will be divided into enumerators' districts and an enumerator will be appointed in each district to take the census. Preference will be given to former soldiers and sailors. This work will last during the month of January, and will pay an average of \$6.00 per day. It is necessary that enumerators be had, and former soldiers and sailors, if they wish the appointment, should at once apply to Mrs. Roy E. Smith, Census Supervisor, Hillsboro, Texas. If you want this job, don't delay, but write now.

BAPTIST ASSOCIATION MEETING

Organization is Effected and Officers

Elected—Rev. Spradley
Acting Moderator.

The Milam County Baptist Association, embracing about 30 churches, met in the First Baptist church of Cameron Wednesday, Oct. 8, 1919, at 8:30 P. M.

After the opening sermon by Rev. S. R. Stewart, pastor of Rockdale church, an organization was effected and the following officers elected:

Rev. B. B. Blaylock, Cameron, Moderator. As it was impossible for Mr. Blaylock to attend the meeting, being at present at patient in the Cameron Sanitarium, Rev. C. L. Spradley was chosen to act in his stead and presided over the ensuing sessions in a most pleasing and acceptable manner. Additional officers were: Rev. S. R. Stewart, Rockdale, Corresponding Secretary; Rev. S. R. McClung, Waco, Recording Secretary.

Thursday was given over mainly to the interest of the Seventy-Five Million dollar campaign, a subject uppermost in the minds of Baptists throughout the South today.

The Milam County Association is thoroughly organized for this campaign, Rev. C. L. Spradley being County Superintendent, Rev. B. B. Blaylock, County Organizer and Publicity Chairman.

Rev. John A. Held, pastor of the First Baptist church of Bryan, addressed the Association Thursday morning in the interest of the campaign and Dr. J. C. Hardy, president of Baylor College, Belton, addressed the body on the same subject Thursday night. Both speakers are strong men and made earnest appeals for this magnificent undertaking.

The Milam County Association has been apportioned \$100,550 as its quota, the amount to be raised within the next five years. The Association voted to a man to assume the full amount assigned them and are most optimistic over the outlook.

On Friday afternoon, Mrs. Williamson of Austin, District Superintendent of the Woman's Auxiliary, conducted a woman's meeting which was well attended by prominent women from over the county. The Association's Auxiliary was reorganized and officers for the coming year were elected: Mrs. Wm. Henderson, Cameron, President; Mrs. John Denson, Cameron, Corresponding Secretary and Treasurer; Miss Edna McKinney, Jones Prairie, Recording Secretary.

The following messengers from twenty-two churches were present during the Association:

Revs. C. L. Spradley, Cameron; S. R. Stewart, Rockdale; S. R. McClung, Waco; John A. Held, Bryan; Dr. J. C. Hardy, Belton; Rev. W. M. Jackson, Buckholts; Rev. D. A. Jones, Waco; Rev. E. C. Willbanks, Waco; Rev. T. P. Angel, Ben Arnold; W. O. Majors, Cameron; and W. O. Angel Gause.

Rev. Glenn Flinn, a prominent member of the Methodist Conference, visited the Association; was formally introduced to the body and invited to

PLANS CHANGED FOR YOE SCHOOL

Two Additional Acres and Modern Bungalow Belonging to W. M.

Cobb Purchased.

When the digging of the foundation for the Yoe Memorial High School was begun, it was found that the two acre plot was not large enough to accommodate the building and provide slightly grounds, Mrs. Yoe was notified and the trustees suggested that two more blocks of land be secured if possible, so as to provide ample grounds to properly set off the beautiful structure which is to be an ornament to our city.

Mr. A. N. Green quickly made arrangements for the two acres buying one, the old Smith homestead of J. L. Clinton, and the Bickett acre from W. W. Chambers and W. M. Cobb. The latter half acre is improved with a new and modern five room bungalow, which will be used for a home for the superintendent.

Mr. Page, the architect, was notified and came from Austin to give the new location and facing of the structure. He came yesterday and the new lines were quickly laid down and new surroundings will be laid out for the big building.

The change will cost Mrs. Yoe an extra ten thousand dollars or more, but she gladly made the additional outlay in order that Cameron's new high school might have ground in keeping with the noble structure which is to adorn them.—Milam County Enterprise.

GINNERS' REPORT FOR MILAM COUNTY

Washington, Oct. 8.—There were 9622 bales of cotton, counting round as half bales, ginned in Milam county from the crop of 1919, prior to September 25, 1919, as compared with 32,967 bales ginned to September 25, 1918.

Married at the Presbyterian manse Saturday evening, Rev. H. R. McFadyen, officiating, Miss Corinne Chandler, of Cameron, and Mr. R. W. Cloud of Waco.

Laymen in attendance: E. W. Rool, Jones Prairie; Chas. Howes, Milam; Leonard Isaacs, W. B. Woody, Mr. Williams, Rockdale; J. W. Pitts, Gause; E. W. Y. Kirkman, Mr. Middleton, San Gabriel; W. O. Kenned, Ben Arnold; Mr. Lauder, Mr. Henson, Burlington; W. R. Looney, Branchville.

Delegates to the Woman's Auxiliary: Mrs. Leonard Isaacs, Mrs. Lizzie Wallis, Mrs. White; Misses Mamie Lewis, Gussie Castleberry, and Mrs. Castleberry, Rockdale; Mrs. M. P. Looney, Miss Mollie Allen, Branchville; Mrs. W. A. Denson, Ben Arnold; Mrs. W. J. Fontaine, Misses Ethel and Edna McKinney, Mrs. W. T. Johnson, Mrs. Jess Mitchell, Mrs. Willie McKinney, Jones Prairie; Mrs. Jackson, North Elm; Mrs. E. S. Moseley, Thorndale; Mrs. C. C. Porter, and Mrs. Fred Fowler, Gause; Mrs. W. R. Looney, Branchville.

TERRELL REVIEWS ADMINISTRATION

Retiring Comptroller Pays Tribute to Work of Employees on Retirement.

Austin, Oct. 8.—Henry B. Terrell, retiring State Comptroller, who last week tendered his resignation to the Governor because of the inadequate compensation paid by the office, today in accepting a gift, a costly rifle of latest pattern, from the members of his department, presented as a token of the high esteem in which Mr. Terrell is held by his force, took occasion to recount the work accomplished during his administration. Mr. Terrell gave full credit to his department force for the splendid showing made during the five years he has been Comptroller, calling especial attention to the efficiency of the department despite the increased burdens, its business multiplying by 100 per cent and all of this without additional help, furthermore, system was installed and has worked splendidly. Figures included in his address are as follows:

Delinquent Tax Collections Swelled.
"You have seen the number of redemption receipts by this department grow from 51,250 in 1915 to 92,920 in 1917. You have seen the amount of delinquent tax collections by the State grow from \$354,602 in 1915 to \$828,421 in 1917. You have witnessed another fact that is worthy of note, and that is that under your administration—covering a period of less than five years—that the State has received more money from delinquent taxes than had been received during the combined administration of all comptrollers since 1895, or a period of 20 years.

"In time gone by you have seen statements of the delay in the issuance of pension warrants. Under your administration each and every Confederate veteran warrant has been mailed from this department at the end of the quarter on the 27th day of the month, and should be in the hands of these grand old men on the last day of the quarter in every section of the State.

"It has been made possible during your service here for the widows of the Mexican war veterans to receive the small pittance allowed by the State at the end of the quarter, without having to pay out any part of it to attorneys.

Auditing System Installed.
"You have seen an auditing system installed by the State for the first time in its history, which is saving the State annually more than the amount required to maintain this department.

"You have seen the number of concerns required to pay a gross receipts tax increased from 1,500 in 1915 to 3,500 in 1919. You have seen the State's revenue from that source swelled from \$779,644 in 1915 to \$1,752,159 in 1919.

"You have seen the value of bonds registered by this office grow from \$14,947,178 in 1915 to \$58,960,191 in 1919. You have seen the average cash balance in the State Treasury on June 1, for four years prior to your administration, of \$1,873,554, grow to \$7,929,834 during your period of service. You have seen the number of general warrants issued in 1915 grow from 25,999 to 61,409 in 1919. You have seen the number of live ledger accounts kept in this office—which is an index to the growth of business—from 874 in 1915 to 1,258 in 1919. You have seen the amount of money disbursed by this office grow from \$17,408,454 in 1915 to \$27,150,279 in 1918. And this tremendous increase in business has been handled with practically the same force."

MAKES GOOD CROP

Louis Wuensche who lives in the Add Hall community was in the city Monday and reported he had sold ten bales of cotton, same bringing him enough money to pay his year's expenses and had a big bank roll left. He has 12 bales of cotton in a warehouse and will get several more, "if it don't drown." Wuensche has 45 acres in cotton besides his feed crop which is enough to last him with a surplus for next year.

LITTLE RIVER ON BIG OVERFLOW

Damage Amounting to Several Thousand Dollars Caused By Flood Waters.

Rain has continued in Cameron since Saturday afternoon almost without ceasing and has been general all over Milam county. There has been no heavy down-pour but the ground was already soaked and the rain now falling is causing considerable damage to crops. Little river, which runs through the cotton belt of Milam county is out of banks for the first time this year.

The cause of this overflow in Little river, according to parties who have kept a close watch on the situation, was extensive rains in the territory that is drained by the San Gabriel river and Brushy creek, which run thru the southwestern part of Milam county. Reasonably heavy rains were reported in Bell and Lampasas counties, but not enough to overflow Little river without the other two streams. The precipitation in this country only amounting to two inches, as reported. Previous to this rain as much as five inches has fallen in the western country without an overflow.

Several of the extensive land owners in Cameron are heavy losers as the result of the overflow. None of them however, can do more than make an estimate now, as they have been unable to make any investigation.

The overflow extended from the mouth of the San Gabriel river south and covered in this territory a wide area.

R. L. Batte reports flood waters on the Riverside, Rogers Valley and Rice farms. He made no estimate of his loss only stating that he had gathered his corn and oat crops and that the loss sustained would be in cotton and feed stuffs, however, it will likely run very heavy.

W. N. Osborne was in town Wednesday from A. H. Baskin's place and reported that he came home from Brownwood the early part of the week and saw the rain that fell in that section, same being light and that when he reached home he had no fear of an overflow until he learned of the rise in the San Gabriel and Brushy. Mr. Osborne reports a bad overflow on Mr. Baskin's Island farm and estimates a loss of 75 bales of cotton which would total near \$40,000.

John Gambill also suffered a very heavy loss from the flood waters, but could give no estimate on same.

A report Wednesday at noon from the government gauge kept by the Water Company on the river is to the effect that the water had receded more than five feet from the high point. However, rain continues to fall.

The Rainfall in Cameron
The heaviest rainfall in Cameron for the week was registered Sunday night. A slow rain Sunday amounted to .65 inches and during Sunday night the precipitation was 1.72 inches, making a total of 2.37 inches. On Monday the rainfall was .65 inches, on Tuesday .38 inches, and Wednesday up until this morning the precipitation was 1.12. This makes a total of 4.52 inches this week in Cameron.

The continued rain has caused a lull in business, it is working a hardship on everybody alike. The farmer is unable to gather his crop, the laborer of course cannot work and the merchants suffer for lack of trade.

CENSUS SUPERVISOR HERE

Mrs. Roy E. Smith of Hillsboro, Director of Census for the 6th District, was in Cameron last week looking after matters pertaining to census work.

Mrs. Smith is a Milam county woman, formerly Miss Marion Burk of Rockdale, and has a number of friends in Cameron and throughout Milam County who are interested in her, and who feel sure the important work entrusted to her will be conscientiously cared for. She was accompanied by her daughter, Miss Dorothy Smith, who will assist her mother in office work.

While in the city Mrs. Smith and daughter were guests of Mrs. J. G. Vest, Mrs. E. A. Wallace and other relatives and friends.

SERVICE

AN OLD WORD WITH A NEW MEANING

Modern, Up-to-Date Store Service means more than simply the selling of goods; it stands for increased Efficiency; it is the Acme of Value-Giving and assures Satisfaction with every purchase.

SERVICE—in its fullest meaning—is a fixed part of our store covenant.

WE NEED TO USE MORE LIME

If the South is to grow grain and raise largely or even enough to make a livestock producing section, the use of ground limestone must be greatly increased. In fact, we must come to regard the use of lime as being as necessary as the use of fertilizers. All lands not well supplied with lime must receive liberal applications regularly every five to ten years according to the amount applied and the crops grown.

Good and profitable money and feed crops can be grown on most of our soils without more lime, but some of the best crops cannot and others do not grow nearly so well as they would if lime were used. It is essential some of the best crops, it will increase the yields of nearly all others, either directly or by its aid in the making of rich soils and being an abundant and cheap material we should extend its use very greatly. In fact, if livestock production is to be developed and rich, productive soils obtained, liming must become a general and regular practice.

Membership in a War Savings Society will help you to save. Save and succeed.

THE HUMBLE HOMECOMING

Home! Home! Sweet, sweet home. Be it ever so humble, There's no place like home.

It has an humble ice box That is full of humble cheer, It has an humble armchair, And some humble couches near.

There's an humble mattress waiting On an humble little bed, Where, an humble evening over, I may rest an humble head.

There is humble running water For my humble morning lave; And there's water, hot and plenty For my humble morning shave.

There is humble electricity, And also humble gas; I push an humble button, And I light 'em as I pass.

The country is a charming place To wander wild and free; But when it comes to humbleness, My humble home for me. —H. H., in the New York Sun.

Our job department is complete. We know what hurry means.

THE SOLDIER AND THE LEAGUE

(Patterson, N. J., Press Guardian.) A Chicagoan, writing to the Chicago Tribune, after a visit to the soldiers' hospital at Fort Benjamin Harrison to see his wounded son, made a pertinent observation it would do well for those who are trying to make political capital out of their opposition to the League of Nations on the alleged ground of Americanism to bear in mind. He wrote:

There are about 1,000 wounded soldiers (in the Fort Benjamin Harrison hospital) who saw service overseas. While there, I heard enough—from the wounded soldiers—to convince me that any man in public life who takes a stand against the proposed League of Nations will most assuredly be retired to private life. All the wounded men with whom I talked feel that the President is trying to do something for humanity. They know what war really is, and are anxious for universal peace. Talk to the soldiers, more especially to those who have been wounded or gassed, and they will tell you, as they told me: "We have had all the war we want. We want peace." And that is what President Wilson crossed the sea for, to bring about peace for all people."

Y. W. C. A. HOSTESS HOUSES CLOSING
Paris Hotels Remain Open As Centers For War Workers.

Of the thirteen Hostess Houses and three clubs in France and the two in Germany which the Y. W. C. A. has modelled, to open again in October only five remain open—three in Paris and two in Brest.

Hotel Petrograd, the largest Hostess House in Paris, is now being remodelled to open again in October as an American Woman's Club, which is to serve all needs of American women in Paris and particularly those of women going to France to visit soldiers' graves. Close co-operation will be maintained between the Y. W. C. A. and the United States Army Graves' Bureau. Hotel Oxford and Cambridge another of the Paris Hostess Houses, will remain open until December 1st, while the base at Hotel Palais-Royal, the third Hostess House, expires in April of 1920.

This last hotel is increasing in popularity daily as a place for American women to live and for American men to eat and to join in social affairs of an evening. The afternoon tea and after dinner coffee, served in the

reception room, are coming to be known as the official social hours of Americans in Paris.

SEEKING LIGHT

Staggering along the street, shouldering a grandfather clock, a man collided with a neighbor who, when recognized, asked if the other was moving.

The clock carrier replied: "Moving be blowed! We've got no matches at our house. I am carrying this to the nearest lamp so that I can see the time."

Your war savings stamps will prove good medicine if illness comes.

Seventeen Years the Favorite Grocer in Cameron

KEEP YOUNG

People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Here's a Cameron case:

Mrs. S. A. Gjedde, Cameron, gave the following statement June 26, 1915: "I am glad to endorse Doan's Kidney Pills for they have done me lots of good. My back ached constantly and I wasn't able to do my work. I was down in bed part of the time and suffered constantly. My head ached and I could hardly see from dizziness. Rheumatic pains darted through my back and sides. My kidneys acted too often and most of the time not freely enough. I was caused much pain and there were other signs of kidney weakness. I was in a bad condition when I read about Doan's Kidney Pills and sent to the City Drug Store for them. Two boxes of Doan's put my kidneys in good order and rid me of the pains in my back."

On July 2, 1919, Mrs. Gjedde ad-

ed: All I have previously said in recommendation of Doan's Kidney Pills, I gladly confirm. I wish to say I feel I owe my good health in my advanced years to Doan's Kidney Pills."

For Over
Thirty Years
CASTORIA
THE CENTAUR COMPANY, NEW YORK CITY

**SEVENTY YEARS OLD;
DRIVES 22,000 MILES**

Mrs. Wm. Upton On Cross Country
Tour Makes Own Ad-
justments.

On her return trip, Mrs. William Upton, the seventy year old woman, alone drove a Ford runabout from San Francisco to New York City visited the Ford Motor Company's main office. She was introduced to the officials of the Company, was photographed, held in her hand a Ford check worth two figures of millions, recounted the experiences she had encountered on her trip, and before leaving made arrangements for securing a new Ford car immediately upon her return to her home in Bakerfield, California.

Mrs. Upton has already driven her present Ford more than 22,000 miles, 7,000 of which were driven since she left San Francisco May 11th, the longest day's drive being 160 miles. At Springfield, Illinois, Mrs. Upton's birthplace, she plans to dispose of the car and after visiting her many friends there, will return home via rail.

When commenting on her trip, she said that in making the drive from the Atlantic to the Pacific, it had not been her purpose to follow a direct line of travel, but to visit the most cities and places of interest. She visited the Petrified Forest, spent several days in the National Capitol, drove to Mount Vernon, visited the site of the Battle of Gettysburg, and then after touring to some of the Atlantic Coast Cities, made her way to New York.

She experienced practically no trouble with her car, although she pointed out the fact that she understands the Ford motor and made her own adjustments. Before leaving the Ford Company, Mrs. Upton expressed hope that her next Ford, probably another runabout, will be equipped with a Ford starter.

Spain has established an electrical school at Barcelona in connection with schools of the textile, dyeing, chemical and tanning industries.

**RECORDS IMPORTANT
IN CLUB WORK**

Boys and girls in club work learn to keep accurate accounts from day to day of their projects. In animal feeding, for example, their records contain such items as cost of feed, cost of hired labor, if any, value of club member's time or labor, receipts from sales or value at end of feeding period, and profit. Aside from the value of the work to the boy or girl in the project itself, there is a training and educational value in complete and accurate record keeping and a benefit from actual ownership, which will be helpful to these future farmers when they assume larger responsibilities.

**BRINGS WONDERFUL
PRESCRIPTION TO ALL
ECZEMA SUFFERERS.**

Zemerine, the latest scientific prescription for the treatment of eczema, itch, and similar skin diseases, is now sold in leading drug stores. Until recently it was the guarded formula of a great physician, and men have paid a higher price for the treatment, but now it is within the reach of every sufferer.

It's time to say good-bye to inflamed and burning skin. Farewell to irritating and unpleasant sores, blotches, and blots which mar your face and make you uncomfortable. Zemerine can give you relief at it has others. Give it a trial under our guarantee, your money back if it fails to benefit you.

Simple directions accompany each bottle. Sold in two sizes, 50 cents and \$1. Start today and learn what relief means. If your druggist can't supply you, the Zemerine Chemical Co., Orangeburg, S. C., will send you a bottle prepaid upon receipt of the price.

DIDN'T INTEREST HIM

A gentleman from Georgia says the labor situation in the South reminds him of this story:

A negro applied to a cotton plantation manager for work.
"All right," said the manager.

"Come around in the morning and I'll put you to work and pay you what you are worth."

"No, suh, I can't do dat," replied the negro. "Ise gittin' mo' dan dat now."—Pittsburg Chronicle Telegraph

Advertise in The Herald—It Pays.

—It's no longer necessary to go into the details describing the practical merits of the Ford car—everybody knows all about "The Universal Car." How it goes and comes day after day and year after year at an operating expense so small that it's wonderful. This advertisement is to urge prospective buyers to place orders without delay. Buy a Ford car when you can get one. We'll take good care of your order—get your Ford to you as soon as possible—and give the best in "after-service" when required.

**DODSON TELLS THE
HORROR OF CALOMEL**

You Don't Need to Sicken, Grip, or Salivate Yourself to Start Liver.

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It is perfectly harmless, so give it to your children any time. It can't salivate.

A chalk line invented by a Japanese resident of Nebraska is enclosed in a case resembling a shoe and is chalked by being drawn out of the toe.

NEW SHOE STYLES

A. E. Barker, representing the Guarantee Shoe Company, of San Antonio, will display an exposition of early new Fall arrivals in men's women's and children's shoes at the Auditorium Hotel, Saturday, October 25th, from 9 a. m. to 6 p. m.

Those interested in the newest styles in correct footwear are invited to attend this Fall exposition.

HEROES

Attention! Doughboys, Engineers, Aero, Tanks and Cavaliers; You guys with medals on your breasts,

And Service Stripes, throw out your chests!

You done us proud, and you can tell 'The folks at home why war is hell. But halt! You land fighters, enough! Don't corner all the hero stuff.

—Burt Franklin Jenness.

A process has been invented in Europe for cutting thin plates of marbles for diffusing electric lights more effectively than frosted glass.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

**"FAKE" ASPIRIN
WAS TALCUM**

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

**LEMON JUICE IS
FRECKLE REMOVER**

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quart of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

**TEXAS COTTON PALACE

Thomas N. Herring, Manager

Cameron, Texas, Oct. 16, 1919

A woman's thumb is ordinarily not very big but there is generally some man under it.

What has become of that rich fellow who used to be able to keep a nice suit for Sunday?

We suggest that if a girl wants to become an expert at cranking Ford's that she practice on the clothes wringer at home.

The reason some men don't chew tobacco is because they would waste too much time looking for a place to expectorate.

When a dentist is working on his wife's teeth she has little opportunity to talk back. Wouldn't you like to be a dentist?

It is still the custom for men to appear at some social function in full dress, but for a woman it doesn't seem to be.

Despite the rain and gloomy attitude it should cause, Cameron merchants go forward with a smile looking for better times that will come.

If you didn't communicate with Roy Jeter about your coal before this bad weather started, it's your own fault, he did his best.

The things that you want are not half so important as the things you'll get, during these times of high prices and profiteering.

Second Hand Automobiles

If it is a second-hand car you want, we have it. We also have it at the right price, and only ask you to come and see for yourself. We have a store-room in the Commercial Hotel Building. See the Salesman at Law-Sprinkel Mercantile Co.

Henselee-Lyon Co.

GEO. B. LAW, Salesman

THE PRISCILLA CLUB

The Priscilla Club was called together after the vacation period last Thursday afternoon by Mrs. Dan Tyson at her home on North Travis Avenue.

A goodly number of members responded and all enjoyed getting together again and taking up club work.

The principal order of business was the election of new members to fill vacancies on the roll. Mrs. T. N. Herring was elected to membership leaving one other vacancy to be filled at a later date.

A dainty refreshment course was served before adjournment. The next meeting will be with Mrs. Albert Triggs. The guests for the afternoon were: Mesdames H. F. Smith, Jr., Lloyd Mitchell, and Miss Willie Hefley.

A SCHOOL PARTY.

Alice Lucile Garrison was hostess to a number of her school mates last Friday evening at the home of her parents, Mr. and Mrs. J. G. Garrison. In spite of a steady down-pour of rain, thirty-eight boys and girls were present and enjoyed an evening of splendid indoor fun.

A lawn party had been planned but when the guests bade their hostess good-night they expressed themselves as really preferring a rainy night for a party.

Let us hope they will always have such cheery optimism in meeting life's disappointments.

Refreshments, consisting of cake and cream were served during the evening.

HAZING AT COLLEGES

Based upon the cowardly superiority of the group against one lone freshman the practice of hazing is prevalent at nearly every male college.

Just as in ordinary life the act of a mob is a cowardly procedure, so in collegiate circles, a body of men who would hesitate and fear to act individually becomes lawless and desperate in the mass.

In Virginia a trial is occupying the courts because of an episode of hazing at Virginia Polytechnic Institute. The cruelty of the system is apparent in this case, where a small lad was belabored severely with a bed slat.

Hazing could be conducted as a pleasantry, as a good-natured joke, but it never has been. The possibility of harmless amusement is always removed by the reality of certain punishment and bullying which accompanies the action. It is a relic of the cruelty loving element in mankind which once burned Christian martyrs as oil torches, or threw them into an arena to be devoured by lions.

It is a custom which should go. It seems to be a practise which few faculties control.

Vernon McIntyre came in last Sunday from Marathon and was a guest in the home of Mr. and Mrs. H. F. Smith, Sr., for a few days before going to Waco for the Clinton-Smith wedding.

THE GERRARD PLAYERS

Announcement is made elsewhere in the Herald this week of the Gerrard Players, who will visit Cameron next week. This is one of the best shows of its character on the road and is deserving of patronage.

Following are some press notices clipped from papers where they have visited in this section of the State:

Belton Journal: The Showalter Tent Theatre, featuring the Gerrard Players, have been in the city for the past week. The players are all high-class performers and the big crowds attending are rendering the highest praise.

Temple Telegram: Showalter's Big Tent Theatre, presenting the Gerrard Players, is showing in the city and attracting an unusually large crowd. The high-class entertainment they are putting on is receiving applause.

McGregor Mirror: The Showalter Tent Theatre, playing the Gerrard Players, are here for the week, their repertoire is replete with plays and high-class vaudeville between acts. Their band and orchestra render the best of music. This show should not be compared with the cheap questionable attractions. If you haven't been, go and enjoy yourself.

Our job department is complete. We know what hurry means.

WEEKLY FINANCIAL REVIEW.

Prepared for The Cameron Herald by
the First National Bank in
St. Louis.

According to Associated Press dispatches, an increase of \$145,330,900 in internal revenue collections this year over last is reported by Commissioner Roper. The total for the year ended June 30 was \$3,839,950,600. Income and excess profit tax collection totaled \$2,596,008,700, a decrease of \$243,019,200 over 1918.

These taxes may be paid in four equal installments, with the last two payments falling due in the fiscal year 1920. The two remaining payments will amount to approximately \$2,000,000,000, which will bring the total amount to approximately \$4,707,000,000, the original estimate of receipts, from these sources.

The revenue in 1919 from distilled spirits was \$365,211,200, an increase of \$47,657,500 over 1918. Taxes in 1919 on fermented liquors amounted to \$8,446,255.44. Taxes on tobacco amounted to \$206,003,090 in 1919, an increase of \$49,814,400.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

AMERICAN LEGION NEWS

From American Legion Weekly

Camp Mills sent away its last troops and closed up on September 17 last. Parts of the Eighteenth Infantry and of the composite regiment were the last to leave.

News dispatches from Mexico City report thirty thousand Germans preparing to immigrate into Mexico from Germany. Two steamers they reached Buenos Aires in September brought with them four hundred and fifty Germans, young, robust and well educated. This seems to answer the question of whether the Germans will leave their Fatherland after the war.

Congress had a plan to present General Pershing with a gold sword to cost \$10,000, but the plan was blocked by a few Representatives who did not like what they called extravagance of the gift. The vote on the proposition was 227 to 1.

The army has rearranged its air service. According to the new plan there will be a first wing stationed at Kelly Field, Texas, and a second wing with headquarters at Langley Field, Va. The outlying possessions will each have an observation consisting of two observation squadrons with necessary reserves.

During the recent maneuvers off the coast of South America a Chilean submarine broke down and sank in sixty feet of water. The water seeped in freely, came in contact with the batteries and formed suffocating chlorine gas. The lights went out while the men were trying to stop the leak, and they labored in black darkness, with their blood hammering in their pulses and their lungs working like bellows, all that day. They were raised and rescued in the night without the loss of a man.

The young soldier who has returned from France to find an added member in his family will be interested in an electric spanker which is being exhibited in New York now. Its mechanism consists of a small motor and an applicator about the size of the parental palm. Its stroke is firm and frequent, and it doesn't say, "This hurts me more than it does you."

There is a town in New Jersey where the inhabitants are worried over the fact that there are no candidates for the offices of mayor and three councilmen. On the other hand, there are some towns that would see cause for celebration if they were in like condition.

The Ninety-First Division had the largest proportion of battle dead to wounded men. The final report of the Casualty Section of the A. E. F. gives complete statistics of the war's casualties which show the Ninety-First at the head with 3.09 and the Ninety-Second at the bottom with 8.33 wounded men to each battle.

Orders have been issued by the Navy Department drawing attention to the fact that the Comptroller of the Treasury has decided that the value of the commuted ration for officers, midshipmen and enlisted men of the Navy will be sixty-eight cents until the end of the fiscal year 1921.

A veteran of twelve years! Harry Gillman has come to America to live after "serving" with British Cavalry and the Fifth Marines. He was wounded at Belleau Wood. He escaped from German prison, where he was sent for killing three officers who slew his parents.

Wireless communication has been successfully established between a submerged submarine and an airplane flying 2,000 feet in the air. Naval officers are greatly interested in the possibilities of this discovery.

King Albert crossed the Atlantic in good company and plenty of it. A regiment of American troops embarked on the George Washington at Brest after Albert had refused to agree to their remaining in France and thus further delaying their departure for home; and three destroyers accompanied the famous transport.

A GOOD EXAMPLE

Reading, Pa.—Now and then somebody thinks about the underpaid pastor. Such a one was John W. Lease, who, in his will, made a provision for the payment of \$5 a year toward the salary of the pastor of St. Paul's Reformed Congregation of Richmond Township. His estate is valued at \$4,500.

Not so bad if many more follow suit, the pastor is reported as having thought upon being apprised of his good luck.

Advertise in The Herald—It Pays.

WHY DISTILLED WATER FOR BATTERIES

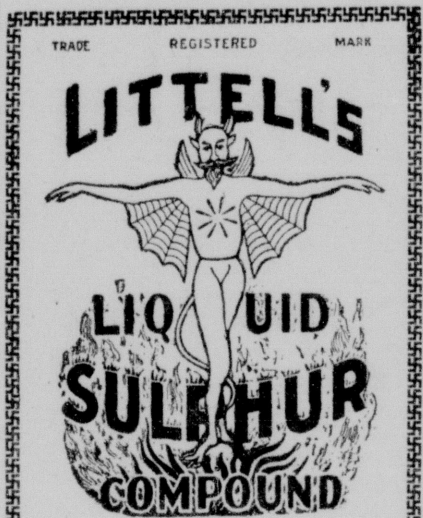

Putting dirty water in a battery is a good deal like putting dirty ice in a refrigerator. Once or twice may do no harm, but the trouble piles up; and everything happens at once.

"When a storage battery is built," says Mr. T. C. White, local representative of the Willard Storage Battery Co., it has in it all the elements necessary to insure satisfactory operation. Nothing can get out of it except the water that evaporates, and nothing can get into it unless it is contained in some form in the water that you add.

"If the water that you put in every week or so to make up for the amount that evaporates contains ever so little iron in any form or other substance, this will remain in the battery. A little more is put in each time, and soon there is enough to interfere with proper action; and your battery wears out much more rapidly than it should.

"If distilled water only is added there is no chance of foreign substances working their way in, and consequently the battery plates will give better and longer service."

The Herald furnishes the news.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle, Large size \$1.00
JAMES F. BALLARD, Prop. St. Louis, MO.

CALAMITY HOWLERS

Assistant Secretary Breckenridge Long said at a Washington dinner party:

"These opponents of the League of Nations are calamity howlers. In every event they see universal chaos and the end of all things. They're like the old lady with neurasthenia.

"A neurasthenic old lady was always thinking she was dying. She was always sending to her relatives to come and bid her a last farewell. The other day she telegraphed to her sister:

"Am dying. Come at once."

"Her sister telegraphed back:

"Am dying also. Meet you on the other side."—Exchange.

Our job department is complete.

If you read it in The Herald—You know it is news.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILD TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Spring wire guards for hook and bait to keep them clear of weeds yet not interfere with fish biting have been invented as a boon for anglers.

Colds Cause Grip and Influenza

LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

CAMELS are in a class by themselves—easily the most refreshing, the most likable cigarette you ever smoked. You can prove that! Simply compare Camels puff-by-puff with any cigarette in the world at any price! Put *quality, flavor and cigarette satisfaction* to the utmost test!

Made to meet your taste, Camels never tire it, no matter how liberally you smoke them! The expert blend of choice Turkish and choice Domestic tobaccos makes Camels delightful—so full-bodied, yet so fascinatingly smooth and mellow-mild. Every time you light one you get new and keener enjoyment!

Freedom from any unpleasant cigarette after taste or any unpleasant cigarette odor makes Camels as unusual as they are enjoyable.

In fact, Camels appeal to the most fastidious smoker in so many new ways you never will miss the absence of coupons, premiums or gifts. *You'll prefer Camel Quality!*

Cigarettes

BEN NABOURS TO MANAGE BIG FARM

Mr. Ben Nabours, the efficient deputy in the County Sheriff's office, and County Jailer, has resigned his position and will leave shortly for Burleson county to assume the management of a big Brazos bottom farm. We understand that Mr. Nabours will receive a handsome salary and every necessity furnished except a wash-woman and from this we gather that the Society of the Folding Arms is active in Burleson county. Mr. Nabours has been a faithful officer for a number of years and has many

friends in Cameron who regret to see him leave but who wish him every success in his new location.

PRESBYTERIAN CHURCH

FUEL OIL CONSUMPTION

(Fort Worth Record.)

Texas is a petroleum producing state and has won first rank. Texas producers should be interested in a dispatch from Pittsburg which says that fuel oil consumption of the greater Pittsburg industrial district for the next twelve months is estimated at from two to three million barrels.

The consumption at present is the annual rate of more than 2,000,000 barrels. Until about three years ago fuel oil consumption in the Pittsburg territory was negligible.

Fuel oil distributors in Pittsburg, such as Beaver Refining company, believe the demand for this grade of oil is in its infancy. Several considerations urge its use as a substitute for coal and gas, and it is believed these will operate with increasing force.

Some of the largest industrial consumers, either operating in Pittsburg or buying their fuel oil supplies through dealers in that place, are using it in varying quantities. The total number of such consumers is already 300 and is constantly increasing.

Give the wildcatter a run for his money. Do not weight him down with handicaps. He takes the risk. He invests his money. He never grows when a duster is his reward. There is an extraordinary demand for fuel oil. It is certain to become greater as time rolls by. This may not be pleasing information to the coal barons of America but the petroleum producers of America should welcome it.

ATTENDING SYNOD

Rev. H. R. McFadyen and Mayor Jno. McLane left Tuesday for Commerce to represent the Presbyterian church at the State Synod, which meets there Tuesday evening. Several matters of importance will come up.

There will be the election of a representative from Texas on a committee on union with the U. S. A. branch of the Presbyterian church. The great drive for our schools is also expected to have an important place. The question of the moving of Files Valley Orphanage is to be considered also.

LOOKING FOR THE ARK

H. M. Whites, the sage of Minerva, was in Cameron yesterday. When asked how he got to town across the river, he replied that it was a dangerous proposition but that urgent business brought him to town. He said that his community was so badly flooded that he came to Cameron hunting "Noah and the Ark."

+++++
+
+ SOMETHING FOR PASTIME +
+
+++++

Paw Knows Everything.

Willie—Paw, what is the horn of plenty?

Paw—The one on that phonograph in the house next door, my son.

Where He Was.

The Mayor of a small town was trying a man for abusing his wife. She claimed he got drunk and tried to beat her, and she hit him.

The Mayor turned to their little girl and asked:

"Little girl, was your father under the influence of whiskey when your mother hit him?"

"No sir. He was under the kitchen table," she quickly replied.—Exchange.

Moreover, you might expect a man to be hard-boiled at his place of business if he's always in hot water at his wife's house.

Maybe you have noticed that the woman who thinks her poodle is as smart as she is usually right about it.

Small Boy: "Are you engaged to my sister?"

Young Man: "No, but I'd like to be."

Small Boy: "Come out from behind that door, sis, I knew I'd earn that quarter."

Private Smith was charged with assaulting a civilian and gave this excuse: "When he stole my girl at the dance and hugged her, I remembered my uniform and kept cool. But when he fanned her with his exemption card, sir, I smashed him."

"Discharged," said the Court Martial.

A young society light who spent his summers in Newport and his winters in New York was visiting some country friends. To show that he knew something of country life, when he was served honey at breakfast he said, "Well I see you keep a bee."

Haberdasher: "And will one collar be sufficient, madam?"

Mrs. Higgins: "Do you insinuate young man, as I 'ave more than one 'usband?"

"Jones is the finest after dinner speaker I ever heard."

"So?"

"Yes. He always says, "Waiter give that check to me!"

"I was out on the track today, and in five minutes I ran a mile in four laps."

"That's nothing. I know a young lady that did thirty miles in one lap and she would have done more if I hadn't got a cramp in my knees."

It was a dark night at Camp Grant. Footsteps of a horse were heard approaching.

"Halt! Who's there?" barked the rookie.

"Regimental Commander."

"Dismount, Colonel, and advance to be recognized."

The Colonel dismounted and came over to the rookie, who presented arms with a snap.

"Proceed, Colonel," he said.

As he laboriously got back on his horse, the Colonel asked, "By the way, who posted you there?"

"Oh, nobody," replied the sentry, "I'm just practicing."

MILAM COUNTY IMPROVED LAND-

The best investment on earth is farm lands in Milam county at present prices all other black land counties north of Milam have advanced and today good black lands are selling for \$250.00 to \$300.00 per acre—can sell you just as good land or better, with same advantages as North Texas, for just one-half the price. HONORS 57TH BIRTHDAY

The children of Mrs. T. N. Lindsey honored her last Sunday with a birthday dinner, in memory of the 57th birthday. The occasion was the cause of much joy in this family and each one made a special effort to make the day pleasant.

At the home of Mr. and Mrs. J. B. Lindsey where the celebration was held the dining room was artistically arranged with pink roses and other beautiful trimmings to make it attractive. The large birthday cake, containing 57 candles also followed the color scheme.

There were 22 present including all members of the immediate family. Mr. and Mrs. J. B. Collier and four children, Leslie Lindsey and wife, D. T. Lindsey, Mr. and Mrs. Bob Terry, and two children and J. B. Lindsey and family.

The feature of the occasion was the presentation to Mrs. Lindsey of

a beautiful basket of gifts, containing a number of handsome pieces of silver and wearing apparel. The basket was presented just before the dining and was carried to the honor guest by her two little grandsons, Master J. B. Collier, Jr., and Howard Terry.

DEATH OF A BABY

The infant son of Mr. and Mrs. Tull A. Pope died at their home in Houston Wednesday morning. The remains were brought to Cameron on the midnight train, and the funeral services were conducted at the residence of Mrs. T. A. Pope this morning at 10:30 o'clock.

Mr. and Mrs. Pope have many friends in Cameron who sympathize with them in their sorrow.

WILL OPEN MAXWELL SERVICE STATION

The announcement has been made that Joe Bass and Harvey Gandy would open the first of November a garage and service station. Mr. Gandy, as is well known, has the agency in Milam county for the Maxwell car, and it is their purpose to maintain

a service station for this popular automobile as well as conduct a garage for the repair of all makes of automobiles. Maxwell parts, as well as a line of accessories, tires, etc., will be carried. Mr. Bass will have charge of the mechanical end of the business which means first-class work, not only in the mechanical end, but is an expert with the electrical equipment of all kinds.

Col. A. J. Peeler and W. W. Wiswell are in the city this week for the purpose of gathering data to be used in the publication of the Standard Blue Book for Texas.

Rev. C. M. Bishop, D. D., President of the Southwestern University, Georgetown, will preach in the Methodist church, Cameron, next Sunday morning and evening, Oct. 19. Members and friends are asked to make a note of this fact and to be present at both services. Dr. Bishop will have an interesting message to deliver.

NOTICE TO PUBLIC

On the 15th day of October I will take the management of S. G. Brooks' dairy. Beginning Nov. 1st, want to bottle all milk sold so that it will be

sanitary. Will sell only in pints and quarts. Price will be 15 cents per quart, straight. Cash terms. Bottles must be washed and returned daily. J. F. Mathis. 23-24-24.

Cameron Furniture Company

COLEMAN & EPLEN—Write Box 728—Phone 413—CAMERON, TEXAS
PHONE OR MAIL ORDERS RECEIVE PROMPT ATTENTION

DON'T SHIRK YOUR DUTY.

You would be a very unnatural parent if you did not wish to give your boy or girl the best educational advantages that are in your power, very thoughtless parent if you sent him to the first school that mailed you a catalogue, and an unpardonable parent if you entered him in school without first investigating its location, sanitation, equipment character of student body, faculty, system of discipline, and above all, the moral surroundings. Yours is the duty of investigation, comparison and ultimate decision.

Your boy or girl is the hope of your life. In him or her is centered your most cherished ambitions. His or her worth to you cannot be measured by dollars and cents, but his or her value must be measured by the training which they received in home and school. If the local school were an ideal place for your boy or girl, you wouldn't think about sending him away from home. Under present conditions, they doubtless need more self reliance, because they lack the power of initiative, are wanting in breadth the scope of vision, haven't learned how to study, can't make for themselves, and are ignorant of the fine art of a business training school where discipline really means something, where personal supervision by the faculty is constant, where our service is rendered above everything else, and where manly and womanly character and conduct are held paramount to all other considerations.

Our thoughts are centered upon the welfare of our girls while here in school as well as their future business career. We have secured the services of Mrs. Martha Gilliam as "Dean of Women." Mrs. Gilliam is well qualified for the great responsibility of caring for the hundreds of young women who are fitting themselves to take the place of our splendid young men who have answered our countries' call for trained business men. Mrs. Gilliam has traveled extensively, observing the positions and conditions of women. She is actively interested in church work for the betterment of woman kind. Her deep interest and sympathy for young women gives her at once a place in the hearts of the students, she will try as nearly as possible to fill the place of Mother to each girl.

Our 228 page catalogue will tell you as to the financial standing of our institution. It will tell you of the endorsements by the best business

men, ministers, lawyers and bankers, it will give you the experience of young people who came to us with limited means, and in a short time in our school what their success and future has meant to them. We know you are bound to be interested, so ask us to furnish you the proof. Our large, beautifully illustrated catalogue is free, if you will fill out this coupon and mail to us.

Tapioca jellied fruitis can be made by cooking one-half cupful of tapioca in one pint of boiling water until transparent; then add any pretty fruit desired, cool and serve with cream.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Cheaply
For Your Face, Neck, Arms and Hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

KINDERGARTEN HELPS FOR PARENTS

TEAM WORK FOR CHILDREN

(By Emily V. Hammond.)

As a child I learned a Latin quotation which has always stood by me and which I have had occasion to use with grown-ups as well as with children. The translation is this—"In essentials unity, in non-essentials, charity." If all team work could be carried on in the spirit of this wise counsel, think of the petty quarrels and big feuds that might be avoided!

We mothers cannot begin too early to teach our children to "play fair" and to work together harmoniously; to emphasize the essentials of life and not to quarrel about the non-essentials.

In the kindergarten the children learn in a very practical and effective way, although they probably could not state in so many words, that the chain is only as strong as the weakest link. If Tommy is disobedient and pulls Sally's hair, then the harmony of the circle is suddenly broken. The other children are quick to appreciate this and when the next one is called upon to select a partner for a game, you may be sure Tommy is not chosen. Soon he begins to feel his exclusion, and it does not take him long to put cause and effect together. In the future he will think twice before pulling Sally's hair!

Treatment such as this proves far more effective than the kind usually administered by an older person. Most children are born with a keen sense of justice, and do not protest at having to suffer the just consequences of their wrong-doing, especially when meted out to them by a tribunal of their peers. This suggests that it is often a wise plan to keep hands off and let the boys and girls adjust their own differences. This helps to promote a good team spirit.

When the children leave kindergarten it is most important to foster their love of playing and working to-

gether in groups. I know of no better organizations for the purpose than the Boy Scouts and Girl Scouts. The former takes boys of 12 and over and the latter starts with girls of 10. The Girl Scouts also have an organization known as Brownies which looks after little girls from 6 to 10. Any parent wanting to know more about the Scouts can obtain their handbooks at headquarters; Boy Scouts of America, 200 Fifth Ave., and Girl Scouts, 527 Fifth Ave., New York.

The Scout motto, "Be Prepared," is a great incentive to boys and girls alike to get together. To make the troop strong each boy and girl must develop strength of character, for we cannot have any weak links in the chain. With an efficient captain in charge to hold aloft a high ideal of service there are no limits which the Scouts may not attain.

It will be a fortunate day for this country when there are kindergartens

and Scout troops in every city and village of the land. These and kindred organizations will help to unite children in all walks of life. They will instill principles of freedom and justice and, above all, will inspire, through work and play, a spirit of comradeship which is indispensable to the welfare of a great democracy.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 64c per bottle.

FOR WHAT DID THEY FIGHT AND PAY?

(The Dearborn Independent).

In the battle of St. Mihiel, 550,000 American soldiers fought, and many of them died. Kindly in civilian life, they proved themselves fierce fighters when after the foe.

An idea of the size of the struggle can be obtained by comparing it with the battle of Gettysburg, in which 100,000 Northern soldiers fought.

The Meuse-Argonne struggle lasted 47 days, and 1,200,000 American soldiers risked their lives, many of them

making the supreme sacrifice.

America had 2,086,000 soldiers in France, of whom 1,390,000 saw battle service, more than 50,000 dying in battle, a total of 122,500 overseas having died.

There were 236,000 American soldiers and sailors wounded on the western front.

No tribute is so great as to do justice to the gallantry shown by the boys who turned the tide of battle and helped our bleeding Allies to a victory, the French soldiers who died in the struggle having numbered 1,385,000 and the British 900,000.

The war cost America much more, very much more, than \$1,000,000 an hour for two years.

The people have paid and are paying taxes on nearly everything; if not directly, then indirectly, on what they wear and eat and in rent.

The nation's net debt as a result of the war is about \$22,000,000,000, or about \$1,000 for every family, which finally must be paid by the toil of the family, for no matter who pays it directly, in the end it comes to the consumer; and with interest added it will amount to more than \$2,000, nearer \$3,000, by the time it is paid.

What was the object of all this sacrifice of life and treasure?

What do we owe to the men who went over and risked their all?

What do we owe to the dead in the fields of France?

What do we owe those who came back maimed for life?

What do we owe to those who gave generously of their wealth and time?

What do we owe humanity?

Do we owe them an assured peace for the future or do we owe them endless bickering?

Those who sacrificed over there cry out that such a sacrifice shall never be forced on humanity again.

Those who suffered in the trenches would have themselves, their children and their children's children spared

CUTTIN' DOWN EXPENSES

seems to be a favorite pastime with mothers nowadays, for regular hair cuts are going up with the prices on the rest of things.

If you're going to cut the boy's hair at home, for goodness sake take pity on him and supply yourself with a good, sharp pair of scissors.

Don't forget in the full line of hardware we handle there are plenty of good scissors for you to select from, as well as a big lot of other high-grade home necessities.

Henne & Meyer Co.

Stores At ROCKDALE, CAMERON, THORNDALE, BUCKHOLTS.

from such an ordeal again.

They know the fierceness of the death-dealing instruments devised by man; they know that another world conflagration, carried on with the knowledge gained in this, would all but wipe out humanity.

We all know that before this war we were told that great armaments worked for peace, and we know now that that was not true; that they meant death to mankind.

We have learned that peace can be maintained throughout the world only through an intelligent understanding among the nations.

And the voices of those who have gone and those who remain cry out for such an understanding.

That understanding, written into the League of Nations, is being accepted in Europe.

Our Constitution gives the United States Senators the power to accept or reject the understanding accepted

by other nations and before this government for action.

Each Senator has a right to use his own judgment, to come to his own conclusion, in the matter, but he has no right to push aside Humanity's cry, and to base that judgment, to come to that conclusion, on the line of party expediency.

There was no partisanship in the fight on the French front; there was no partisanship in the buying of Liberty Bonds or giving to patriotic funds; there should be no partisanship in the contest in the United States Senate; but, unfortunately, there is.

THE FLYING STATESMAN.

A congressman observed one day an airship in its flight, Said he, "Oh, let me sail away; I don't care where we light!"

The public answered with a sigh: "Our minds you sadly fret! Oh, please do not attempt to fly, You're not an angel yet."

—Exchange.

GALLERY WIT.

An old-timer was reminiscing at the club. "Speaking of famous singers," he said, "I remember being present at a concert at which Madam Nilsson was to sing, but she was indisposed. The foreigner who announced the fact said: "Madam Nilsson ees a little horse."

NEW AIRPLANE SPEED RECORD IS SET

New York.—A new official world record for speed, 184 miles an hour, has been made at Villa Coublay, France, by a Spad single seater airplane, according to a cable message to the Manufacturers Aircraft Association. This speed, it is claimed, is twenty miles faster than any other official record. The Spad was equipped with a 200-horsepower Hispano-Suiza motor. A similar type of machine, carrying a passenger weighing 160 pounds, made 175 miles an hour. The name of the driver was not given.

RADIATOR LEAKS
Radiator leaks are often very hard to locate, especially when they are little ones. In these circumstances empty the radiator completely and blow smoke into it through a jeweler's blowpipe. This will discover the location of the leak. A little soft solder on the end of a wire will enable you to reach the places where common soldering can be carried out.

GLYCERIN FOR SLIPPING CLUTCH
Glycerin of the best quality applied to the leather facing of cone clutches gives the "take hold" which is often lacking. If the clutch is fierce in taking hold, add a little graphite to the glycerin.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

CITATION

THE STATE OF TEXAS }
County of Milam }
To the Sheriff or any Constable of Milam County—Greeting:

You are hereby commanded to summon Andrew Williams by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 20th judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said Milam County, to appear at the next regular term of the District Court of Milam County, to be held at the court house thereof in Cameron, on the 10th day of November, 1919, the same being the 2nd Monday in November, 1919 then and there to answer to a petition filed in said court on the 24th day of November, 1919, in a suit, numbered on the docket of said court No. 8017, wherein Mollie Williams is plaintiff and Andrew Williams is defendant. This suit is for divorce upon the ground of more than three years abandonment of plaintiff by the defendant with intention of permanent abandonment commencing in October 1915, plaintiff praying for dissolution of the bonds of matrimony existing between her and defendant and for costs of suit and general and special relief, etc.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon showing how you have executed the same.

Witness: PENN WOLF,
Clerk of the District Court,
Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 24th day of September, A. D. 1919.

CAM-HI ANNUAL

After much consideration and thought as to whether the Cam-Hi Annual of 1919-20 should be published, the senior class arranged a meeting to vote on the matter, and the vote was unanimous for its publication. Since the Seniors are largely responsible for its publication, they wish to make it a splendid success, and the very best edition that has been published. There is enough talent in the class to do these things,

if each senior will do his part toward this end.

The Senior class has decided to undertake the publication of the Annual, taking into consideration some very important matters. If an annual is a complete success, it should be gotten out on time. The class of 1919-20 surely want a successful annual, and to accomplish this, they must get it on time, so that it will be ready for distribution by the last of May, and not a month later. Another matter to be considered is that the most strenuous efforts should be put forth to improve the annual as the years go by. Unless improvements are being made, there is a great deal lacking, and much has not been done that should have been, not only in regard to the annual alone, but the school as a whole. Then, too, it must be understood that the annual is not for the Seniors alone, although they are responsible to a great extent for its success; but it is for the whole school, and each high school student has an interest in it, and carries a responsibility. Every true and loyal student should be willing to do almost any kind of work to make the required dollar for his annual, because he is not only securing an annual for himself, but is also helping to make the Cam-Hi a success.

In the class meeting, the following officers for the annual were elected:

Editor-in-chief, Thomas Hefley.
 Assistant Editor-in-chief, George Hooks.

MEMBER OF THE JUNIOR CLASS WINS FAME

Joyce Cox, a well known member of the Junior Class, won great fame through his ability to sell War Savings Stamps during the War Savings Stamp campaign. He sold over six thousand dollars worth, and received as a reward for his deed a medal. The Junior class takes great pleasure in claiming Mr. Joyce as a class member. Cam-Hi should be proud of him.

ORGANIZATION OF THE CAM-HI ORCHESTRA

Last Tuesday afternoon the Cam-Hi Orchestra was organized with a membership composed entirely of high school students.

With plans for a large high school band this winter, the idea of having a large orchestra was given up. With Mr. Crawford as director, we hope to have the best high school orchestra in the state. There are ten members in this organization, and each one is an experienced musician. The membership is as follows:

Agnes Henderson, Piano; Billie Clark, Violin; Olive Henderson, Violin; Charles Pardo, Clarinet; Charlie Frank Green, Clarinet; Leland Denson, Cornet; Lee R. Tag, Cornet; Willie Parma, Baritone; Eugene Matula, Bass; Walter Henriksen, Traps.

FRESHMEN VISIT ICE PLANT

On Wednesday afternoon, chaperoned by Miss Williams, the Freshman class visited the ice plant. Mr. Lawrence conducted us, then explaining the system of making ice. Under the direction of Mr. Crawford in science and Miss Work in English, the Freshmen class is to write this week a theme on the water system of Cameron. The three best themes on this subject will be chosen and published in the Cam-Hi Weekly two weeks from today. This is only one of a series of papers dwelling on civic problems to be worked up by the Freshmen class this year, and the class hopes to make many visits of this sort.

IF YOU WERE A STUDENT OF CAM-HI

Would you offer any one of the following excuses for being tardy:

I had eleven cows to milk and feed, four mules to feed, two hogs to feed, and four calves to feed.

I had to dig some potatoes out in the garden, and got my shirt dirty and had to change it.

I went to the barber shop and got

Eyes Tested

and

Broken Lens Duplicated

Jewelry Repairing

GEO. A. THOMAS & SONS

Drugs and Jewelry

a hair cut, therefore, I am tardy. (These are some of the excuses that have actually been given.)

First Freshman: August Knipp spells ridiculously.

Second F.: Does he? Well, if he does, I'll bet it is about the only word he can spell, so far as my observation goes.

Mr. Crawford: What kind of plants flourish in hot climates?

Harleigh McGregor: Ice Plants. We sometimes wonder how the fish and the chickens are agreeing. We don't hear anything more from them.

Miss Bass reading erroneous selections from the autobiographies of students, "And what is the matter with this sentence: 'Having learned a great deal of English since that time.'"

Voice in rear of room: "It is a false statement."

Mr. Crawford, in discussion of adhesion and cohesion in Physics: White, by what force does a stamp stick on an envelope?

White: By the glue.

THE GIRLS' CLUB

The Girls' Club met on Thursday, October 9, 1919, with a large attendance. The house was called to order by the president, and then some rules which the cabinet had made were read over and voted on by the club. Although the rules were strict to a certain extent, they were satisfactory to all.

A name for the club was decided on. "The Girls' Club" was the most pleasing and appropriate. The colors purple and white were chosen for the club colors, and the flower adopted was the rose.

After business was finished, the following program on friendship was carried out:

"Our opportunity for friendship"—Miss Frances Hefley.

"The business of being a friend"—Miss Earl Bragg.

"The house by the side of the road"—A poem—Miss Louise Denson.

The program was well carried out and it is quite evident that the "Girls' Club" will be a great success. All the girls are working together and are displaying great interest in the meetings of the club, committee meetings, and programs.

MISS ADAMS ENTERTAINS

On Saturday evening, October 11th, Miss Louise Adams entertained a number of her girls friends at her home on Hefley Heights. The amusements provided were candy making and corn popping. Later in the evening, fruits were served. Much excitement and laughter was experienced when Miss Louise Denson devoured a red hot pepper in her candy, which was placed there by Miss Bessie Wiley. We regret to say that Miss Denson used nearly a pound of fresh butter in trying to stop the burning in her mouth.

Present at this delightful function were: Misses Kitty Cain, Tennie Mae Bass, Louise Denson, Bessie Wiley, Dulce McCall.

Joe Mohler: Jack, do you know anything that has happened to the Sophomore class that I could write?

Jack Taylor: Yes. Bob Gillon got a hair cut.

Latest—Agnes Chambers, singing a song entitled "He who drinks Bevo"

has no kick coming."

In Senior class meeting while electing officers, Pat Kennon gets up, "Mr. Chairman, I nominate Miss Grace Mangum as class flower."

ATHLETICS FOR PAST WEEK

The Cam-Hi rabbits were busy on the gridiron every afternoon for the past week hitting 'em hard. Through the efforts of Mr. Cameron, our coach, the rabbits have been developing their ferocity of tackling and general rough work. It is doubtful that we will have a game this year unless we play in boats. Our game for Friday was called off at the last minute. All the rabbits had assembled at the static and had purchased tickets, when Caldwell notified us that they could not play on account of the rain. All called in their tickets and left with a growl. After the rain subsided, our manager called Caldwell and asked to play them Saturday the 11th, but failed for they said the ground would be too wet. He then secured a game for Tuesday. Mr. Cameron has sent them an invitation to play on the home ground, rain or shine. Although we haven't heard from them, we expect to go Tuesday.

GIRLS' BASKET BALL TEAM

The girls' basket ball team of Cam-Hi has entered into the year's work with great interest, and is going to carry off all the games. With the hearty approval of Superintendent Kidd it has become a member of the inter-scholastic league. Plans have been made to have a goal prepared and the court cleaned, and also enlarged. The coach, Miss Carrol, is very efficient and a well developed team has been organized.

WEEKLY EXPLOSIVES

It is our idea that some of the girls are determined not to be tardy. They have bobbed their hair so that they will not have to lose time in combing it.

Mrs. Solomon says, that if she were a Senior she would stir up some privileges.

The Cam-Hi Widow has been disappointed in love. She was determined to catch a fish, but she has lost hope. One little fish girl has all the fish boys on the go.

FRESHMEN PARTY

On Friday, October 10th, Miss Alica Lucile Garrison entertained the Freshmen class at her home. There was also a few from the other classes present. Though it was raining hard, tea couples were there.

When they first arrived, games were played. Later stroll cards were given. The rest of the evening was spent in dancing. Mr. Leland Denson, with cornet, and Miss Minnie Nell Blaylock furnished the music. Later in the evening ice cream and cake were served. All enjoyed themselves.

"ADVERTISERS OF FACTS" CAMERON, TEXAS

HAS YOUR WIFE THESE CONVENIENCES?

Every kitchen should be arranged for convenience and shelves and racks provided for the kitchen utensils. Then an oil stove and fireless cooker should be provided. Probably the most important labor-saver of all is a small gasoline engine fitted up with a line shaft to furnish power for the washing machine, the wringer, the churn, the separator, the vacuum cleaner, the dynamo, the pump and so on. This is an age of power ma-

chinery rather than human muscle, and our farm women must fall in line.

A modern water system, a bathroom, aseptic tank and a private electric lighting plant make the farm residence a real home. The cost of such equipment varies, but thoroughly reliable equipment of this kind may be installed at a cost well within the reach of many thousands of prosperous farmers.

There are many water supply systems that may be used on the farm. A very simple and inexpensive system consists of a sink in the kitchen

with a drain pipe to carry the water away. A force pump is placed at the well or cistern which is so connected that water can be drawn at the well or cut off there and the water forced into the house. A pipe conducts the water from the pump to an elevated tank. Water may be piped to different parts of the house from the tank.

A new fly swatter is a cone of wire that is shot out from a pistol by a spring, its shape making the escape of an insect almost impossible.

HINTS TO THE CAR OWNER

Don't Exceed Speed Limits.

If your engine doesn't start quickly make sure that gas and sparp are right.

Practice shifting gears until you know instinctively from the car's speed just when you should make each shift.

Don't attempt to shift gears without first releasing the clutch.

Don't fail to appear in court for trial on the date set, in case of arrest.

Dim your lights when approaching another auto on the road.

If you use battery for ignition and your battery is weak, do not use self-starter to crank the engine and expect good ignition at the same time. Better crank the engine by hand and save as much current as possible for ignition.

Sometimes preignition is caused by overheated spark plugs. Don't let the plug project too far into the combustion chamber. Use the proper length plug for your type engine.

An Ohio man has invented a machine for gathering grasshoppers on a wholesale scale, consisting of a motor tricycle on the front of which is a funnel through which the insects are drawn by a revolving fan in a box.

FOR THE UPBUILDING OF CAMERON AND MILAM COUNTY.

VOLUME 42

CAMERON, MILAM COUNTY, TEXAS, THURSDAY, OCTOBER 16, 1919.

NUMBER 24

CAMERON AFTER AN INTERURBAN

President of Central Texas Electric Railway Will Visit Commercial Club.

At the Directors meeting of Cameron Commercial Club, held Friday night, Oct. 10th, 1919, a roll call showed the following present:

Officers: Robt. McLane, President; W. W. Chambers, Vice-President; T. N. Herring, Secretary.

Directors: John E. Mangum, J. W. Coleman, Geo. T. Graves, R. H. McIntosh, T. S. Henderson, W. G. Gillis, J. D. Dobbins, Monta Thomas, C. W. Lawrence, J. T. Parma.

Committee Chairman: T. F. Hardy, J. Garrison, Giles L. Avriett, S. A. Cottle, Dr. James Watson.

Minutes of previous meetings were read and after discussion of the elimination of the three standing committees, and the passing of a motion by T. S. Henderson to re-appoint same, they were adopted. The committees in question being Free Delivery and Rural Route, Agricultural and Immigration, Convention and Accommodation.

J. Garrison brought up the matter of a mud hole in the street near the Santa Fe depot, leading from the passenger station to the freight house. The matter of whose jurisdiction this property came under, whether the city or the railroad company was discussed, and disposition was made of same by instructing the civic improvement committee to bring same to the attention of the city council.

A report on the clean-up campaign was heard from Mr. Avriett, who explained that after considerable difficulty he has been able to procure a man with a wagon and had him at work. He also related that the cost for the job would be \$70 and the city had arranged to pay half this amount and the balance had not been provided for. The question of the Commercial Club paying the other half for the clean-up campaign came up for discussion. Upon motion from W. W. Chambers action was deferred for two weeks until the council had held another meeting.

The question of membership came up for discussion and it was thought advisable for the membership committee to make a drive for new members. T. S. Henderson carried a motion that the Secretary furnish this committee with a list of the present membership as a guide to proceed with their work.

R. H. McIntosh brought up under the head of new business the possibility of locating in Cameron an institution that was provided for by the last legislature, same being a home for dependent and neglected orphan children. He stated there was appropriated \$100,000 for the erecting of this institution. The matter was discussed and met with hearty support. The President appointed Mr. McIntosh as Chairman of a committee to make further investigation and to take steps necessary to locating same in Cameron. The chairman was also given authority to select the other members of the committee.

A letter was read by the secretary from Mr. O. A. Ryfle of Waco, who is the head of the Central Texas Electric Railway Company, which organization is going to build an Interurban from Waco to Temple. The letter was in answer to a communication from the Cameron Commercial Club relative to an extension of this line to Cameron. Mr. Ryfle outlined that he already had Cameron in mind as he knew that it was the liveliest town in Texas and was made up of men who did things. The communication was discussed and every member present heartily endorsed the project. A motion carried to invite Mr. Ryfle to attend the next directors meeting of the club to be held Friday night, October 17th.

The name of J. F. Braum, manager for the Louis S. Pierce Dry Goods Store was proposed for membership and he was duly elected.

E. A. Wallace appeared before the directors representing Mrs. Roy E. Smith, district census supervisor of Hillsboro. Mr. Wallace said she was anxious to have a number of appli-

TAX VALUATION IN MILAM 18 MILLIONS

Report From Assessor, Miss Leila Wooley, Is Approved By Commissioners' Court.

The tremendous task of completing the 1919 tax rolls of Milam county, compiling them, and submitting them to the Commissioners' Court has been completed by Miss Leila Wooley.

This work was finished only a few days ago and was submitted at last regular session of this body October 1st, and same was duly approved and the assessor given a vote of thanks for her efficient work.

The report of the tax assessor shows the property valuation in Milam county for 1919 to be eighteen and a half million dollars.

The rate of taxation is as follows: State, 75 cents on \$100 valuation. County, 63 cents on \$100 valuation. Total State and county rate on \$100 valuation being \$1.38.

There are 75 schools in Milam county levying special school tax ranging from 15 to 50 cents in addition.

Nineteen road districts in Milam county levying special tax for good roads from 40 cents to \$1.90 in addition. Eleven of the road districts have levied the tax this year by special election to build good roads and there are others being created.

Miss Wooley, with the experience she has had in this office, was enabled to render a very fine report, it was not only neat in appearance, showing the work of an artist in this line, but was correct in every detail.

DR. R. L. HOWELL MAKING SURVEY

Dr. R. L. Howell, representing the State Health Department of Austin, is in the city and has taken up his work of making indexical health survey of Cameron. Dr. Howell's first work is an examination of the school children, which work he has about completed and owing to the excessive rains he will likely be delayed in his work over the city. Dr. Howell is a very affable man and has done much among the school children in advising them of their defects, where found. As soon as the weather will permit the doctor, with an engineer, who will also be supplied by the State Health Board, will take up the work of a house to house survey.

Dr. Howell reports that in conversation with Dr. C. W. Goddard, State Health Officer, at Austin yesterday, he urged that the people over the State start a real clean-up campaign as soon as the rains have stopped. Dr. Goddard said the need for such was more imperative now than ever before to prevent an epidemic of influenza and some other serious malady.

cations for enumerators in Milam county and suggested that the Commercial Club take the matter in hand. After discussion a motion carried for the President and Secretary to induce a number of applicants for the place.

A motion also carried that W. G. Gillis mail application blanks and forms to parties on the other committees in the Cameron precinct.

Later Advice.

The following letter from Mr. Ryfle received on Wednesday to the Commercial Club will be of interest:

Waco, Texas, Oct. 14th.
Mr. T. N. Herring, Sec'y.,
Cameron Com. Club,
Cameron, Texas.

Dear Sir: In response to your communication of the 11th inst., I wish to thank you for your courteous invitation to be present at your regular meeting on Friday evening, October 17th, and regret that it will be impossible for me to attend this meeting but will be glad to be with you on the following Friday, October 24th.

Again thanking you for your courtesy in this matter, and looking forward to seeing you on the date above mentioned, I beg to remain,
Very truly yours,
O. A. RYFLE,
President Gen'l Manager.

ATTENTION FORMER SOLDIERS AND SAILORS

The U. S. census will be taken in January, 1920. The county will be divided into enumerators' districts and an enumerator will be appointed in each district to take the census. Preference will be given to former soldiers and sailors. This work will last during the month of January, and will pay an average of \$6.00 per day. It is necessary that enumerators be had, and former soldiers and sailors, if they wish the appointment, should at once apply to Mrs. Roy E. Smith, Census Supervisor, Hillsboro, Texas. If you want this job, don't delay, but write now.

BAPTIST ASSOCIATION MEETING

Organization is Effected and Officers Elected—Rev. Spradley Acting Moderator.

The Milam County Baptist Association, embracing about 30 churches, met in the First Baptist church of Cameron Wednesday, Oct. 8, 1919, at 8:30 P. M.

After the opening sermon by Rev. S. R. Stewart, pastor of Rockdale church, an organization was effected and the following officers elected:

Rev. B. B. Blaylock, Cameron, Moderator. As it was impossible for Mr. Blaylock to attend the meeting, being at present at patient in the Cameron Sanitarium, Rev. C. L. Spradley was chosen to act in his stead and presided over the ensuing sessions in a most pleasing and acceptable manner. Additional officers were: Rev. S. R. Stewart, Rockdale, Corresponding Secretary; Rev. S. R. McClung, Waco, Recording Secretary.

Thursday was given over mainly to the interest of the Seventy-Five Million dollar campaign, a subject uppermost in the minds of Baptists throughout the South today.

The Milam County Association is thoroughly organized for this campaign, Rev. C. L. Spradley being County Superintendent, Rev. B. B. Blaylock, County Organizer and Publicity Chairman.

Rev. John A. Held, pastor of the First Baptist church of Bryan, addressed the Association Thursday morning in the interest of the campaign and Dr. J. C. Hardy, president of Baylor College, Belton, addressed the body on the same subject Thursday night. Both speakers are strong men and made earnest appeals for this magnificent undertaking.

The Milam County Association has been apportioned \$100,650 as its quota, the amount to be raised within the next five years. The Association voted to a man to assume the full amount assigned them and are most optimistic over the outlook.

On Friday afternoon, Mrs. Williamson of Austin, District Superintendent of the Woman's Auxiliary, conducted a woman's meeting which was well attended by prominent women from over the county. The Associational Auxiliary was reorganized and officers for the coming year were elected: Mrs. Wm. Henderson, Cameron, President; Mrs. John Denson, Cameron, Corresponding Secretary and Treasurer; Miss Edna McKinney, Jones Prairie, Recording Secretary.

The following messengers from twenty-two churches were present during the Association:

Revs. C. L. Spradley, Cameron; S. R. Stewart, Rockdale; S. R. McClung, Waco; John A. Held, Bryan; Dr. J. C. Hardy, Belton; Rev. W. M. Jackson, Rockhills, Rev. D. A. Jones, Waco; Rev. E. C. Willbanks, Waco; Rev. T. P. Angel, Ben Arnold; W. O. Majors, Cameron; and W. O. Angel Gause.

Rev. Glenn Flinn, a prominent member of the Methodist Conference, visited the Association; was formally introduced to the body and invited to

PLANS CHANGED FOR YOE SCHOOL

Two Additional Acres and Modern Bungalow Belonging to W. M. Cobb Purchased.

When the digging of the foundation for the Yoe Memorial High School was begun, it was found that the two acre plot was not large enough to accommodate the building and provide slightly grounds, Mrs. Yoe was notified and the trustees suggested that two more blocks of land be secured if possible, so as to provide ample grounds to properly set off the beautiful structure which is to be an ornament to our city.

Mr. A. N. Green quickly made arrangements for the two acres buying one, the old Smith homestead of J. L. Clinton, and the Bickett acre from W. W. Chambers and W. M. Cobb. The latter half acre is improved with a new and modern five room bungalow, which will be used for a home for the superintendent.

Mr. Page, the architect, was notified and came from Austin to give the new location and facing of the structure. He came yesterday and the new lines were quickly laid down and new surroundings will be laid out for the big building.

The change will cost Mrs. Yoe an extra ten thousand dollars or more, but she gladly made the additional outlay in order that Cameron's new high school might have ground in keeping with the noble structure which is to adorn them.—Milam County Enterprise.

GINNERS' REPORT FOR MILAM COUNTY

Washington, Oct. 8.—There were 9622 bales of cotton, counting round as half bales, ginned in Milam county from the crop of 1919, prior to September 25, 1919, as compared with 32,967 bales ginned to September 25, 1918.

Married at the Presbyterian manse Saturday evening, Rev. H. R. McFadden, officiating, Miss Corinne Chandler, of Cameron, and Mr. R. W. Cloud of Waco.

MAKES GOOD CROP

Louis Wuensche who lives in the Add Hall community was in the city Monday and reported he had sold ten bales of cotton, same bringing him enough money to pay his year's expenses and had a big bank roll left. He has 12 bales of cotton in a warehouse and will get several more, "if it don't drown." Wuensche has 45 acres in cotton besides his feed crop which is enough to last him with a surplus for next year.

TERRELL REVIEWS ADMINISTRATION

Retiring Comptroller Pays Tribute to Work of Employees on Retirement.

Austin, Oct. 8.—Henry B. Terrell, retiring State Comptroller, who last week tendered his resignation to the Governor because of the inadequate compensation paid by the office, today in accepting a gift, a costly rifle of latest pattern, from the members of his department, presented as a token of the high esteem in which Mr. Terrell is held by his force, took occasion to recount the work accomplished during his administration. Mr. Terrell gave full credit to his department force for the splendid showing made during the five years he has been Comptroller, calling especial attention to the efficiency of the department despite the increased burdens, its business multiplying by 100 per cent and all of this without additional help. Furthermore, system was installed and has worked splendidly. Figures included in his address are as follows:

Delinquent Tax Collections Swelled.

"You have seen the number of redemption receipts by this department grow from 51,250 in 1915 to 92,920 in 1917. You have seen the amount of delinquent tax collections by the State grow from \$354,602 in 1915 to \$828,421 in 1917. You have witnessed another fact that is worthy of note, and that is that under your administration—covering a period of less than five years—that the State has received more money from delinquent taxes than had been received during the combined administration of all comptrollers since 1895, or a period of 20 years.

"In time gone by you have seen statements of the delay in the issuance of pension warrants. Under your administration each and every Confederate veteran warrant has been mailed from this department at the end of the quarter on the 27th day of the month, and should be in the hands of these grand old men on the last day of the quarter in every section of the State.

"It has been made possible during your service here for the widows of the Mexican war veterans to receive the small pittance allowed by the State at the end of the quarter, without having to pay out any part of it to attorneys.

Auditing System Installed.

"You have seen an auditing system installed by the State for the first time in its history, which is saving the State annually more than the amount required to maintain this department.

"You have seen the number of concerns required to pay a gross receipts tax increased from 1,500 in 1915 to 3,500 in 1919. You have seen the State's revenue from that source swelled from \$779,644 in 1915 to \$1,752,159 in 1919.

"You have seen the value of bonds registered by this office grow from \$1,947,178 in 1915 to \$38,960,190 in 1919. You have seen the average cash balance in the State Treasury on June 1, for four years prior to your administration, of \$1,873,554, grow to \$7,929,834 during your period of service. You have seen the number of general warrants issued in 1915 grow from 25,999 to 61,409 in 1919. You have seen the number of live ledger accounts kept in this office—which is an index to the growth of business—from 874 in 1915 to 1,258 in 1919. You have seen the amount of money disbursed by this office grow from \$17,408,454 in 1915 to \$27,150,279 in 1918. And this tremendous increase in business has been handled with practically the same force."

MAKES GOOD CROP

Louis Wuensche who lives in the Add Hall community was in the city Monday and reported he had sold ten bales of cotton, same bringing him enough money to pay his year's expenses and had a big bank roll left. He has 12 bales of cotton in a warehouse and will get several more, "if it don't drown." Wuensche has 45 acres in cotton besides his feed crop which is enough to last him with a surplus for next year.

LITTLE RIVER ON BIG OVERFLOW

Damage Amounting to Several Thousand Dollars Caused By Flood Waters.

Rain has continued in Cameron since Saturday afternoon almost without ceasing and has been general all over Milam county. There has been no heavy down-pour but the ground was already soaked and the rain now falling is causing considerable damage to crops. Little river, which runs through the cotton belt of Milam county is out of banks for the first time this year.

The cause of this overflow in Little river, according to parties who have kept a close watch on the situation, was extensive rains in the territory that is drained by the San Gabriel river and Brushy creek, which run thru the southwestern part of Milam county. Reasonably heavy rains were reported in Bell and Lampasas counties, but not enough to overflow Little river without the other two streams. The precipitation in this country only amounting to two inches, as reported. Previous to this rain as much as five inches has fallen in the western country without an overflow.

Several of the extensive land owners in Cameron are heavy losers as the result of the overflow. None of them however, can do more than make an estimate now, as they have been unable to make any investigation.

The overflow extended from the mouth of the San Gabriel river south and covered in this territory a wide area.

R. L. Batte reports flood waters on the Riverside, Rogers Valley and Rice farms. He made no estimate of his loss only stating that he had gathered his corn and oat crops and that the loss sustained would be in cotton and feed stuffs, however, it will likely run very heavy.

W. N. Osborne was in town Wednesday from A. H. Baskin's place and reported that he came home from Brownwood the early part of the week and saw the rain that fell in that section, same being light and that when he reached home he had no fear of an overflow until he learned of the rise in the San Gabriel and Brushy. Mr. Osborne reports a bad overflow on Mr. Baskin's Island farm and estimates a loss of 75 bales of cotton which would total near \$40,000.

John Gambill also suffered a very heavy loss from the flood waters, but could give no estimate on same.

A report Wednesday at noon from the government gauge kept by the Water Company on the river is to the effect that the water had receded more than five feet from the high point. However, rain continues to fall.

The Rainfall in Cameron

The heaviest rainfall in Cameron for the week was registered Sunday night. A slow rain Sunday amounted to .65 inches and during Sunday night the precipitation was 1.72 inches, making a total of 2.37 inches. On Monday the rainfall was .65 inches, on Tuesday .38 inches, and Wednesday up until this morning the precipitation was 1.12. This makes a total of 4.52 inches this week in Cameron.

The continued rain has caused a lull in business, it is working a hardship on everybody alike. The farmer is unable to gather his crop, the laborer of course cannot work and the merchants suffers for lack of trade.

CENSUS SUPERVISOR HERE

Mrs. Roy E. Smith of Hillsboro, Director of Census for the 6th District, was in Cameron last week looking after matters pertaining to census work.

Mrs. Smith is a Milam county woman, formerly Miss Marion Burck of Rockdale, and has a number of friends in Cameron and throughout Milam County who are interested in her, and who feel sure the important work entrusted to her will be conscientiously cared for. She was accompanied by her daughter, Miss Dorothy Smith, who will assist her mother in office work.

While in the city Mrs. Smith and daughter were guests of Mrs. J. G. Vest, Mrs. E. A. Wallace and other relatives and friends.

SERVICE

AN OLD WORD WITH A NEW MEANING

Modern, Up-to-Date Store Service means more than simply the selling of goods; it stands for increased Efficiency; it is the Acme of Value-Giving and assures Satisfaction with every purchase.

SERVICE—in its fullest meaning—is a fixed part of our store covenant.

THE SOLDIER AND THE LEAGUE

(Patterson, N. J., Press Guardian.)

A Chicagoan, writing to the Chicago Tribune, after a visit to the soldiers' hospital at Fort Benjamin Harrison to see his wounded son, made a pertinent observation it would do well for those who are trying to make political capital out of their opposition to the League of Nations on the alleged ground of Americanism to bear in mind. He wrote:

There are about 1,000 wounded soldiers (in the Fort Benjamin Harrison hospital) who saw service overseas. While there, I heard enough—from the wounded soldiers—to convince me that any man in public life who takes a stand against the proposed League of Nations will most assuredly be retired to private life. All the wounded men with whom I talked feel that the President is trying to do something for humanity. They know what war really is, and are anxious for universal peace. Talk to the soldiers, more especially to those who have been wounded or gassed, and they will tell you, as they told me: "We have had all the war we want. We want peace." And that is what President Wilson crossed the sea for, to bring about peace for all people."

Hunt's Salve, formerly called Hunt's Cure is especially compounded for the treatment of Itch, Eczema, Ring worm, and Tetter, and is sold by the druggist on the strict guarantee that the purchase price, 75c, will be promptly refunded to any dissatisfied customer. Try Hunt's Salve at our risk. For sale locally by

WE NEED TO USE MORE LIME

If the South is to grow grain and raise largely or even enough to make a livestock producing section, the use of ground limestone must be greatly increased. In fact, we must come to regard the use of lime as being as necessary as the use of fertilizers. All lands not well supplied with lime must receive liberal applications regularly every five to ten years according to the amount applied and the crops grown.

Good and profitable money and feed crops can be grown on most of our soils without more lime, but some of the best crops cannot and others do not grow nearly so well as they would if lime were used. It is essential to some of the best crops, it will increase the yields of nearly all others, either directly or by its aid in the making of rich soils and being an abundant and cheap material we should extend its use very greatly. In fact, if livestock production is to be developed and rich, productive soils obtained, liming must become a general and regular practice.

Membership in a War Savings Society will help you to save. Save and succeed.

THE HUMBLE HOMECOMING

Home! Home! Sweet, sweet home.
Be it ever so humble,
There's no place like home.

It has an humble ice box
That is full of humble cheer,
It has an humble armchair,
And some humble couches near.

There's an humble mattress waiting
On an humble little bed,
Where, an humble evening over,
I may rest an humble head.

There is humble running water
For my humble morning lave;
And there's water, hot and plenty
For my humble morning shave.

There is humble electricity,
And also humble gas;
I push an humble button,
And I light 'em as I pass.

The country is a charming place
To wander wild and free;
But when it comes to humbleness,
My humble home for me.

Y. W. C. A. HOSTESS HOUSES CLOSING

Paris Hotels Remain Open As Centers For War Workers.

Of the thirteen Hostess Houses and three clubs in France and the two in Germany which the Y. W. C. A. has modelled, to open again in October only five remain open—three in Paris and two in Brest.

Hotel Petrograd, the largest Hostess House in Paris, is now being remodelled to open again in October as an American Woman's Club, which is to serve all needs of American women in Paris and particularly those of women going to France to visit soldiers' graves. Close co-operation will be maintained between the Y. W. C. A. and the United States Army Graves' Bureau. Hotel Oxford and Cambridge another of the Paris Hostess Houses, will remain open until December 1st, while the lease at Hotel Palais-Royal, the third Hostess House, expires in April of 1920.

This last hotel is increasing in popularity daily as a place for American women to live and for American men to eat and to join in social affairs of an evening. The afternoon tea and after dinner coffee, served in the

reception room, are coming to be known as the official social hours of Americans in Paris.

SEEKING LIGHT

Staggering along the street, shouldering a grandfather clock, a man collided with a neighbor who, when recognized, asked if the other was moving.

The clock carrier replied: "Moving be blowed! We've got no matches at our house. I am carrying this to the nearest lamp so that I can see the time."

Your war savings stamps will prove good medicine if illness comes.

KEEP YOUNG

People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Here's a Cameron case:

Mrs. S. A. Gjedde, Cameron, gave the following statement June 26, 1915: "I am glad to endorse Doan's Kidney Pills for they have done me lots of good. My back ached constantly and I wasn't able to do my work. I was down in bed part of the time and suffered constantly. My head ached and I could hardly see from dizziness. Rheumatic pains darted through my back and sides. My kidneys acted too often and most of the time not freely enough. I was caused much pain and there were other signs of kidney weakness. I was in a bad condition when I read about Doan's Kidney Pills and sent to the City Drug Store for them. Two boxes of Doan's put my kidneys in good order and rid me of the pains in my back."

On July 2, 1919, Mrs. Gjedde ad-

ed: All I have previously said in recommendation of Doan's Kidney Pills, I gladly confirm. I wish to say I feel I owe my good health in my advanced years to Doan's Kidney Pills."

CASTORIA
THE CENTAUR COMPANY NEW YORK CITY

**SEVENTY YEARS OLD;
DRIVES 22,000 MILES**

**Mrs. Wm. Upton On Cross Country
Tour Makes Own Ad-
justments.**

On her return trip, Mrs. William Upton, the seventy year old woman, alone drove a Ford runabout from San Francisco to New York City visited the Ford Motor Company's main office. She was introduced to the officials of the Company, was photographed, held in her hand a Ford check worth two figures of millions, recounted the experiences she had encountered on her trip, and before leaving made arrangements for securing a new Ford car immediately upon her return to her home in Bakerfield, California.

Mrs. Upton has already driven her present Ford more than 22,000 miles, 7,000 of which were driven since she left San Francisco May 11th, the longest day's drive being 160 miles. At Springfield, Illinois, Mrs. Upton's birthplace, she plans to dispose of the car and after visiting her many friends there, will return home via rail.

When commenting on her trip, she said that in making the drive from the Atlantic to the Pacific, it had not been her purpose to follow a direct line of travel, but to visit the most cities and places of interest. She visited the Petrified Forest, spent several days in the National Capitol, drove to Mount Vernon, visited the site of the Battle of Gettysburg, and then after touring to some of the Atlantic Coast Cities, made her way to New York.

She experienced practically no trouble with her car, although she pointed out the fact that she understands the Ford motor and made her own adjustments. Before leaving the Ford Company, Mrs. Upton expressed hope that her next Ford, probably another runabout, will be equipped with a Ford starter.

**"FAKE" ASPIRIN
WAS TALCUM**

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

LEMON JUICE IS FRECKLE REMOVER

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

**RECORDS IMPORTANT
IN CLUB WORK**

Boys and girls in club work learn to keep accurate accounts from day to day of their projects. In animal feeding, for example, their records contain such items as cost of feed, cost of hired labor, if any, value of club member's time or labor, receipts from sales or value at end of feeding period, and profit. Aside from the value of the work to the boy or girl in the project itself, there is a training and educational value in complete and accurate record keeping and a benefit from actual ownership, which will be helpful to these future farmers when they assume larger responsibilities.

**BRINGS WONDERFUL
PRESCRIPTION TO ALL
ECZEMA SUFFERERS.**

Zemerine, the latest scientific prescription for the treatment of eczema, itch, and similar skin diseases, is now sold in leading drug stores. Until recently it was the guarded formula of a great physician, and men have paid a higher price for the treatment, but now it is within the reach of every sufferer.

It's time to say good-bye to inflamed and burning skin. Farewell to irritating and unpleasant sores, splotches, and blots which mar your face and make you uncomfortable. Zemerine can give you relief at it has others. Give it a trial under our guarantee, your money back if it fails to benefit you.

Simple directions accompany each bottle. Sold in two sizes, 50 cents and \$1. Start today and learn what relief means. If your druggist can't supply you, the Zemerine Chemical Co., Orangeburg, S. C., will send you a bottle prepaid upon receipt of the price.

DIDN'T INTEREST HIM

A gentleman from Georgia says the labor situation in the South reminds him of this story:

A negro applied to a cotton plantation manager for work.
"All right," said the manager.

"Come around in the morning and I'll put you to work and pay you what you are worth."

"No, suh, I can't do dat," replied the negro. "I'se gittin' mo' dan dat now."—Pittsburg Chronicle Telegraph

**DODSON TELLS THE
HORROR OF CALOMEL**

You Don't Need to Sicken, Grip, or Salivate Yourself to Start Liver.

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It is perfectly harmless, so give it to your children any time. It can't salivate.

A chalk line invented by a Japanese resident of Nebraska is enclosed in a case resembling a shoe and is chalked by being drawn out of the toe.

NEW SHOE STYLES

A. E. Barker, representing the Guarantee Shoe Company, of San Antonio, will display an exposition of early new Fall arrivals in men's women's and children's shoes at the Auditorium Hotel, Saturday, October 25th, from 9 a. m. to 6 p. m.

Those interested in the newest styles in correct footwear are invited to attend this Fall exposition. 24-25-25

HEROES

Attention! Doughboys, Engineers, Aero, Tanks and Cavaliers; You guys with medals on your breasts, And Service Stripes, throw out your chests!

You done us proud, and you can tell The folks at home why war is hell. But halt! You land fighters, enough! Don't corner all the hero stuff.

—Burt Franklin Jenness.

A process has been invented in Europe for cutting thin plates of marbles for diffusing electric lights more effectively than frosted glass.

You Do More Work.

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

Thomas N. Herring, Manager

Cameron, Texas, Oct. 16, 1919

A woman's thumb is ordinarily not very big, but there is generally some man under it.

What has become of that rich fellow who used to be able to keep a nice suit for Sunday?

We suggest that if a girl wants to become an expert at cranking Ford's that she practice on the clothes wringer at home.

The reason some men don't chew tobacco is because they would waste too much time looking for a place to expectorate.

When a dentist is working on his wife's teeth she has little opportunity to talk back. Wouldn't you like to be a dentist?

It is still the custom for men to appear at some social function in full dress, but for a woman it doesn't seem to be.

Despite the rain and gloomy attitude it should cause, Cameron merchants go forward with a smile looking for better times that will come.

If you didn't communicate with Roy Jeter about your coal before this bad weather started, it's your own fault, he did his best.

The things that you want are not half so important as the things you'll get, during these times of high prices and profiteering.

The Cameron Public School under Superintendent Kidd is running at full force. The attendance is larger than ever, the list of teachers include some very able instructors. Cameron has one of the best schools in Texas. Come to Cameron.

We don't believe there is anything that will keep Cameron from growing to be a city. Business in all lines is booming, the merchants reports the best business ever, and houses are still in demand. If you want to live in a live town come to Cameron.

The Cotton Palace at Waco opens October 25th. Everybody should remember the date and attend this great exposition. The citizenship of Waco have undergone many hardships in replacing what they lost by fire. Texas should show its appreciation of this splendid exposition by giving Waco the greatest attendance and attention they have ever had.

Cameron is moving to get the Waco-Temple Interurban to extend its line to a connection with that city and through the efforts of the wide-awake commercial club of that city a conference with the promoter of the line will be held Oct. 24, when the deal for the extension probably will be closed. Cameron is doing some tall hustling now and its commercial organization is made up of live wires who seem to get what they want when they want it.—Temple Telegram.

THE WAITRESS' REVENGE

The Sioux Falls Press tells of a waitress, who had occasion to call up a party at another town. She did not get the party within whom she wished to talk. Nevertheless she had to pay for the message under the Burlington station-to-station, person-to-person system. She protested vigorously against the charge, but was informed that she must pay for the "report" that the party she wanted was not available for conversation.

A day or two later the manager of the telephone company was waited on by the waitress. Among other things he ordered a piece of cherry pie. He was advised that the larder was innocent of cherry pie at that time. When he went to pay his bill he noted that he was charged for a piece of cherry pie! He protested, but was met by the waitress, who told him that the charge was for the "report" that there was no cherry pie to be had.

Subscribe for the Herald—Always on time.

THE PRISCILLA CLUB

The Priscilla Club was called together after the vacation period last Thursday afternoon by Mrs. Dan Tyson at her home on North Travis Avenue.

A goodly number of members responded and all enjoyed getting together again and taking up club work.

The principal order of business was the election of new members to fill vacancies on the roll. Mrs. T. N. Herring was elected to membership leaving one other vacancy to be filled at a later date.

A dainty refreshment course was served before adjournment. The next meeting will be with Mrs. Albert Triggs. The guests for the afternoon were: Mesdames H. F. Smith, Jr., Lloyd Mitchell, and Miss Willie Hefley.

A SCHOOL PARTY.

Alice Lucile Garrison was hostess to a number of her school mates last Friday evening at the home of her parents, Mr. and Mrs. J. G. Garrison. In spite of a steady down-pour of rain, thirty-eight boys and girls were present and enjoyed an evening of splendid indoor fun.

A lawn party had been planned but when the guests bade their hostess good-night they expressed themselves as really preferring a rainy night for a party.

Let us hope they will always have such cheery optimism in meeting life's disappointments.

Refreshments, consisting of cake and cream were served during the evening.

HAZING AT COLLEGES

Based upon the cowardly superiority of the group against one lone freshman the practice of hazing is prevalent at nearly every male college.

Just as in ordinary life the act of a mob is a cowardly procedure, so in collegiate circles, a body of men who would hesitate and fear to act individually becomes lawless and desperate in the mass.

In Virginia a trial is occupying the courts because of an episode of hazing at Virginia Polytechnic Institute. The cruelty of the system is apparent in this case, where a small lad was belabored severely with a bed slat.

Hazing could be conducted as a pleasantry, as a good-natured joke, but it never has been. The possibility of harmless amusement is always removed by the reality of certain punishment and bullying which accompanies the action. It is a relic of the cruelty loving element in mankind which once burned Christian martyrs as oil torches, or threw them into an arena to be devoured by lions.

It is a custom which should go. It seems to be a practise which few faculties control.

Vernon McIntyre came in last Sunday from Marathon and was a guest in the home of Mr. and Mrs. H. F. Smith, Sr. for a few days before going to Waco for the Clinton-Smith wedding.

Notice.

To all persons interested in the Estate of John T. Moore, Notice is hereby given that R. Oty Moore and L. Roy Moore have filed in the County Court of Milam County, an application for letters testamentary on the estate of John T. Moore, deceased, which will be heard on the next regular term of the County Court, same being the 1st day of December, A. D. 1919, at the Court House thereof, in the City of Cameron at which time all persons interested in said estate may appear and contest said application if they see proper.

Here Fail Not, under penalty of law, and of this Writ make due return.

Given under my hand and seal of office, in the City of Cameron, the 10th day of October, A. D. 1919.

Attest: WILL T. YATES, Clerk,
County Court, Milam Co., Texas
By DICK CLARK, Deputy. 24-4t-27

THE GERRARD PLAYERS

Announcement is made elsewhere in the Herald this week of the Gerrard Players, who will visit Cameron next week. This is one of the best shows of its character on the road and is deserving of patronage.

Following are some press notices clipped from papers where they have visited in this section of the State:

Belton Journal: The Showalter Tent Theatre, featuring the Gerrard Players, have been in the city for the past week. The players are all high-class performers and the big crowds attending are rendering the highest praise.
Temple Telegram: Showalter's Big Tent Theatre, presenting the Gerrard Players, is showing in the city and attracting an unusually large crowd. The high-class entertainment they are putting on is receiving applause.

McGregor Mirror: The Showalter Tent Theatre, playing the Gerrard Players, are here for the week, their repertoire is replete with plays and high-class vaudeville between acts. Their band and orchestra render the best of music. This show should not be compared with the cheap questionable attractions. If you haven't been, go and enjoy yourself.

Our job department is complete. We know what hurry means.

RECEIVED

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, ... and the pains were very severe. A friend told me I had tried everything else, why not Cardui?... I did, and soon saw it was helping me... After 12 bottles, I am strong and well."

TAKE

CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

All Druggists

WEEKLY FINANCIAL REVIEW.

Prepared for The Cameron Herald by the First National Bank in St. Louis.

According to Associated Press dispatches, an increase of \$145,330,900 in internal revenue collections this year over last is reported by Commissioner Roper. The total for the year ended June 30 was \$3,839,950,600. Income and excess profit tax collection totaled \$2,596,008,700, a decrease of \$243,019,200 over 1918.

These taxes may be paid in four equal installments, with the last two payments falling due in the fiscal year 1920. The two remaining payments will amount to approximately \$2,000,600,000, which will bring the total amount to approximately \$4,707,000,600, the original estimate of receipts, from these sources.

The revenue in 1919 from distilled spirits was \$365,211,200, an increase of \$47,657,500 over 1918. Taxes in 1919 on fermented liquors amounted to \$8,446,255.44. Taxes on tobacco amounted to \$206,003,090 in 1919, an increase of \$49,814,400.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

AMERICAN LEGION NEWS

From American Legion Weekly

Camp Mills sent away its last troops and closed up on September 17 last. Parts of the Eighteenth Infantry and of the composite regiment were the last to leave.

News dispatches from Mexico City report thirty thousand Germans preparing to immigrate into Mexico from Germany. Two steamers they reached Buenos Aires in September brought with them four hundred and fifty Germans, young, robust and well educated. This seems to answer the question of whether the Germans will leave their Fatherland after the war.

Congress had a plan to present General Pershing with a gold sword to cost \$10,000, but the plan was blocked by a few Representatives who did not like what they called extravagance of the gift. The vote on the proposition was 227 to 1.

The army has rearranged its air service. According to the new plan there will be a first wing stationed at Kelly Field, Texas, and a second wing with headquarters at Langley Field, Va. The outlying possessions will each have an observation consisting of two observation squadrons with necessary reserves.

During the recent maneuvers off the coast of South America a Chilean submarine broke down and sank in sixty feet of water. The water seeped in freely, came in contact with the batteries and formed suffocating chlorine gas. The lights went out while the men were trying to stop the leak, and they labored in black darkness, with their blood hammering in their pulses and their lungs working like bellows, all that day. They were raised and rescued in the night without the loss of a man.

The young soldier who has returned from France to find an added member in his family will be interested in an electric spanker which is being exhibited in New York now. Its mechanism consists of a small motor and an applicator about the size of the parental palm. Its stroke is firm and frequent, and it doesn't say, "This hurts me more than it does you."

There is a town in New Jersey where the inhabitants are worried over the fact that there are no candidates for the offices of mayor and three councilmen. On the other hand, there are some towns that would see cause for celebration if they were in like condition.

The Ninety-First Division had the largest proportion of battle dead to wounded men. The final report of the Casualty Section of the A. E. F. gives complete statistics of the war's casualties which show the Ninety-First at the head with 3.09 and the Ninety-Second at the bottom with 8.33 wounded men to each battle.

Orders have been issued by the Navy Department drawing attention to the fact that the Comptroller of the Treasury has decided that the value of the commuted ration for officers, midshipmen and enlisted men of the Navy will be sixty-eight cents until the end of the fiscal year 1921.

A veteran of twelve years! Harry Gillman has come to America to live after "serving" with British Cavalry and the Fifth Marines. He was wounded at Belleau Wood. He escaped from German prison, where he was sent for killing three officers who slew his parents.

Wireless communication has been successfully established between a submerged submarine and an airplane flying 2,000 feet in the air. Naval officers are greatly interested in the possibilities of this discovery.

King Albert crossed the Atlantic in good company and plenty of it. A regiment of American troops embarked on the George Washington at Brest after Albert had refused to agree to their remaining in France and thus further delaying their departure for home; and three destroyers accompanied the famous transport.

A GOOD EXAMPLE

Reading, Pa.—Now and then somebody thinks about the underpaid pastor. Such a one was John W. Lease, who, in his will, made a provision for the payment of \$5 a year toward the salary of the pastor of St. Paul's Reformed Congregation of Richmond Township. His estate is valued at \$4,500.

Not so bad if many more follow suit, the pastor is reported as having thought upon being apprised of his good luck.

Advertise in The Herald—It Pays.

WHY DISTILLED WATER FOR BATTERIES

Putting dirty water in a battery is a good deal like putting dirty ice in a refrigerator. Once or twice may do no harm, but the trouble piles up; and everything happens at once.

"When a storage battery is built," says Mr. T. C. White, local representative of the Willard Storage Battery Co., it has in it all the elements necessary to insure satisfactory operation. Nothing can get out of it except the water that evaporates, and nothing can get into it unless it is contained in some form in the water that you add.

"If the water that you put in every week or so to make up for the amount that evaporates contains ever so little iron in any form or other substance, this will remain in the battery. A little more is put in each time, and soon there is enough to interfere with proper action; and your battery wears out much more rapidly than it should.

"If distilled water only is added there is no chance of foreign substances working their way in, and consequently the battery plates will give better and longer service."

The Herald Furnishes the news.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

Small size 50 cents bottle, Large size \$1.00
JAMES F. BALLARD, Prop. St. Louis, Mo.

CALAMITY HOWLERS

Assistant Secretary Breckenridge Long said at a Washington dinner:

"These opponents of the League of Nations are calamity howlers. In every event they see universal chaos and the end of all things. They're like the old lady with neurasthenia.

"A neurasthenic old lady was a lady thinking she was dying. She was always sending to her relatives to come and bid her a last farewell. The other day she telegraphed to her sister:

"Am dying. Come at once."
"Her sister telegraphed back:
"Am dying also. Meet you on the other side."—Exchange.

Our job department is complete.

If you read it in The Herald—You know it is news.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

Spring wire guards for hook and bait to keep them clear of weeds yet not interfere with fish biting have been invented as a boon for anglers.

Colds Cause Grip and Influenza

LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

Best be certain and not guess. You can save through W. S. S.

CAMELS are in a class by themselves—easily the most refreshing, the most likable cigarette you ever smoked. You can prove that! Simply compare Camels puff-by-puff with any cigarette in the world at any price! Put quality, flavor and cigarette satisfaction to the utmost test!

Made to meet your taste, Camels never tire it, no matter how liberally you smoke them! The expert blend of choice Turkish and choice Domestic tobaccos makes Camels delightful—so full-bodied, yet so fascinatingly smooth and mellow-mild. Every time you light one you get new and keener enjoyment!

Freedom from any unpleasant cigarette after taste or any unpleasant cigarette odor makes Camels as unusual as they are enjoyable.

In fact, Camels appeal to the most fastidious smoker in so many new ways you never will miss the absence of coupons, premiums or gifts. You'll prefer Camel Quality!

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

Cigarettes

**BEN NABOURS TO
MANAGE BIG FARM**

Mr. Ben Nabours, the efficient deputy in the County Sheriff's office, and County Jailor, has resigned his position and will leave shortly for Burleson county to assume the management of a big Brazos bottom farm. We understand that Mr. Nabours will receive a handsome salary and every necessity furnished except a washwoman and from this we gather that the Society of the Folding Arms is active in Burleson county. Mr. Nabours has been a faithful officer for a number of years and has many

friends in Cameron who regret to see him leave but who wish him every success in his new location.

PRESBYTERIAN CHURCH

There will be the usual services next Sunday. The series on the Ten Commandments closed last Sunday night and the pastor is considering a series on the "Sermon on the Mount."

Removal Notice

I have moved my harness store and shop on Houston Avenue to the building back of the Cameron State Bank. F. J. Beckerman. 24-

FUEL OIL CONSUMPTION

(Fort Worth Record.)

Texas is a petroleum producing state and has won first rank. Texas producers should be interested in a dispatch from Pittsburg which says that fuel oil consumption of the greater Pittsburg industrial district for the next twelve months is estimated at from two to three million barrels.

The consumption at present is the annual rate of more than 2,000,000 barrels. Until about three years ago fuel oil consumption in the Pittsburg territory was negligible.

Fuel oil distributors in Pittsburg, such as Beaver Refining company, believe the demand for this grade of oil is in its infancy. Several considerations urge its use as a substitute for coal and gas, and it is believed these will operate with increasing force.

Some of the largest industrial consumers, either operating in Pittsburg or buying their fuel oil supplies through dealers in that place, are using it in varying quantities. The total number of such consumers is already 300 and is constantly increasing.

Give the wildcatter a run for his money. Do not weight him down with handicaps. He takes the risk. He invests his money. He never grows when a duster is his reward. There is an extraordinary demand for fuel oil. It is certain to become greater as time rolls by. This may not be pleasing information to the coal barons of America but the petroleum producers of America should welcome it.

ATTENDING SYNOD

Rev. H. R. McFadyen and Mayor Jno. McLane left Tuesday for Commerce to represent the Presbyterian church at the State Synod, which meets there Tuesday evening. Several matters of importance will come up.

There will be the election of a representative from Texas on a committee on union with the U. S. A. branch of the Presbyterian church. The great drive for our schools is also expected to have an important place. The question of the moving of Files Valley Orphanage is to be considered also.

LOOKING FOR THE ARK

H. M. Whites, the sage of Minerva, was in Cameron yesterday. When asked how he got to town across the river, he replied that it was a dangerous proposition but that urgent business brought him to town. He said that his community was so badly flooded that he came to Cameron hunting "Noah and the Ark."

SOMETHING FOR PASTIME**Paw Knows Everything.**

Willie—Paw, what is the horn of plenty?

Paw—The one on that phonograph in the house next door, my son.

Where He Was.

The Mayor of a small town was trying a man for abusing his wife. She claimed he got drunk and tried to beat her, and she hit him.

The Mayor turned to their little girl and asked:

"Little girl, was your father under the influence of whiskey when your mother hit him?"

"No sir. He was under the kitchen table," she quickly replied.—Exchange.

Moreover, you might expect a man to be hard-boiled at his place of business if he's always in hot water at his wife's house.

Maybe you have noticed that the woman who thinks her poodle is as smart as she is usually right about it.

Small Boy: "Are you engaged to my sister?"

Young Man: "No, but I'd like to be."

Small Boy: "Come out from behind that door, sis, I knew I'd earn that quarter."

Private Smith was charged with assaulting a civilian and gave this excuse: "When he stole my girl at the dance and hugged her, I remembered my uniform and kept cool. But when he fanned her with his exemption card, sir, I smashed him."

"Discharged," said the Court Martial.

A young society light who spent his summers in Newport and his winters in New York was visiting some country friends. To show that he knew something of country life, when he was served honey at breakfast he said, "Well I see you keep a bee."

Haberdasher: "And will one collar be sufficient, madam?"

Mrs. Higgins: "Do you insinuate young man, as I 'ave more than one 'usband?"

"Jones is the finest after dinner speaker I ever heard."

"So?"

"Yes. He always says, 'Waiter give that check to me!'"

"I was out on the track today, and in five minutes I ran a mile in four four laps."

"That's nothing. I know a young lady that did thirty miles in one lap and she would have done more if I hadn't got a cramp in my knees."

It was a dark night at Camp Grant. Footsteps of a horse were heard approaching.

"Halt!" Who's there?" barked the rookie.

"Regimental Commander."

"Dismount, Colonel, and advance to be recognized."

The Colonel dismounted and came over to the rookie, who presented arms with a snap.

"Proceed, Colonel," he said.

As he laboriously got back on his horse, the Colonel asked, "By the way, who posted you there?"

"Oh, nobody," replied the sentry, "I'm just practicing."

**MILAM COUNTY
IMPROVED LAND-**

The best investment on earth is farm lands in Milam county at present prices all other black land counties north of Milam have advanced and today good black lands are selling for \$250.00 to \$300.00 per acre—can sell you just as good land or better, with same advantages as North Texas, for just one-half the price. If you are thinking about buying land come in and I would be glad to talk with you. Have some special bargains in good homes which I can give you possession January 1st coming, and can offer you extra liberal terms on large or small tracts.

SEE ME TODAY FOR YOUR WANTS

LILAC LOCALS

Since our last writing we have had some heavy rains, there being little cotton picked in about a week. We are sorry to see this rain as we have lots of cotton in the field and most of the corn is still in the field.

Perry Baker of Union Ridge was in our community Sunday last. Perry said that he had picked 12 bales of cotton and will get that many more.

Mr. and Mrs. Rufus Graves went to Bartlett this week to take their little girl to the sanitarium to have her tonsils treated.

Dr. Kirkpatrick passed through our community the past week.

Henry Moore, the jitney man of Thorndale was in our burg the past week.

Third Saturday night and Sunday Rev. Sanders will preach for us. We hope a large crowd will attend as there is a lot of business to attend to.

Henry McCree and wife and mother motored to Thorndale the past week.

Chas. Hooks was trading in Sharp Saturday last.

Albert Hook visited Bob Hook last Sunday.

R. H. Bolton went to East Texas the past week in search of cotton pickers.

Mr. Spencer of Thorndale was seen in our community the past week.

Joe McQueen is out in West Texas looking for a location.

We were indeed sorry to hear of the death of our friend Forrest Boles. Our sympathy goes out to the loved ones in their sad hours.

Best be certain and not guess. You can save through W. S. S.

HONORS 57TH BIRTHDAY

The children of Mrs. T. N. Lindsey honored her last Sunday with a birthday dinner, in memory of the 57th birthday. The occasion was the cause of much joy in this family and each one made a special effort to make the day pleasant.

At the home of Mr. and Mrs. J. B. Lindsey where the celebration was held the dining room was artistically arranged with pink roses and other beautiful trimmings to make it attractive. The large birthday cake, containing 57 candles also followed the color scheme.

There were 22 present including all members of the immediate family. Mr. and Mrs. J. B. Collier and four children, Leslie Lindsey and wife, D. T. Lindsey, Mr. and Mrs. Bob Terry, and two children and J. B. Lindsey and family.

The feature of the occasion was the presentation to Mrs. Lindsey of

a beautiful basket of gifts, containing a number of handsome pieces of silver and wearing apparel. The basket was presented just before the dining and was carried to the honor guest by her two little grandsons, Master J. B. Collier, Jr., and Howard Terry.

DEATH OF A BABY

The infant son of Mr. and Mrs. Tull A. Pope died at their home in Houston Wednesday morning. The remains were brought to Cameron on the midnight train, and the funeral services were conducted at the residence of Mrs. T. A. Pope this morning at 10:30 o'clock.

Mr. and Mrs. Pope have many friends in Cameron who sympathize with them in their sorrow.

WILL OPEN MAXWELL SERVICE STATION

The announcement has been made that Joe Bass and Harvey Gandy would open the first of November a garage and service station. Mr. Gandy, as is well known, has the agency in Milam county for the Maxwell car, and it is their purpose to maintain

a service station for this popular automobile as well as conduct a garage for the repair of all makes of automobiles. Maxwell parts, as well as a line of accessories, tires, etc., will be carried. Mr. Bass will have charge of the mechanical end of the business which means first-class work, not only in the mechanical end, but is an expert with the electrical equipment of all kinds.

Col. A. J. Peeler and W. W. Wiswell are in the city this week for the purpose of gathering data to be used in the publication of the Standard Blue Book for Texas.

Rev. C. M. Bishop, D. D., President of the Southwestern University, Georgetown, will preach in the Methodist church, Cameron, next Sunday morning and evening, Oct. 19. Members and friends are asked to make a note of this fact and to be present at both services. Dr. Bishop will have an interesting message to deliver.

NOTICE TO PUBLIC

On the 15th day of October I will take the management of S. G. Brooks' dairy. Beginning Nov. 1st, want to bottle all milk sold so that it will be

sanitary. Will sell only in pints and quarts. Price will be 15 cents per quart, straight. Cash terms. Bottles must be washed and returned daily. J. F. Mathis. 23-24.

Removal Notice

I have moved my harness store and shop on Houston Avenue to the building back of the Cameron State Bank. F. J. Beckerman. 24-

CHRISTIAN CHURCH

Sunday school at 10 o'clock, preaching at 11 a. m., and 8:00 p. m. My morning subject will be "With Jesus Through the Storm."

PHONE OR MAIL ORDERS RECEIVE PROMPT ATTENTION

DON'T SHIRK YOUR DUTY

You would be a very unnatural parent if you did not wish to give your boy or girl the best educational advantages that are in your power, very thoughtful parent if you sent him to the first school that mailed you a catalogue, and an unpardonable parent if you entered him in school without first investigating its location, sanitation, equipment character of student body, faculty, system of discipline, and above all, the moral surroundings. Yours is the duty of investigation, comparison and ultimate decision.

Your boy or girl is the hope of your life. In him or her is centered your most cherished ambitions. His or her worth to you cannot be measured by dollars and cents, but his or her value must be measured by the training which they received in home and school. If the local school were an ideal place for your boy or girl, you wouldn't think about sending him away from home. Under present conditions, they doubtless need more self reliance, because they lack the power of initiative, are wanting in breadth the scope of vision, haven't learned how to study, can't make for themselves, and are ignorant of the fine art of a business training school where discipline really means something, where personal supervision by the faculty is constant, where our service is rendered above everything else, and where manly and womanly character and conduct are held paramount to all other considerations.

Our thoughts are centered upon the welfare of our girls while here in school as well as their future business career. We have secured the services of Mrs. Martha Gilliam as "Dean of Women." Mrs. Gilliam is well qualified for the great responsibility of caring for the hundreds of young women who are fitting themselves to take the place of our splendid young men who have answered our countries' call for trained business men. Mrs. Gilliam has traveled extensively, observing the positions and conditions of women. She is actively interested in church work for the betterment of woman kind. Her deep interest and sympathy for young women gives her at once a place in the hearts of the students, she will try as nearly as possible to fill the place of Mother to each girl.

Our 228 page catalogue will tell you as to the financial standing of our institution. It will tell you of the endorsements by the best business

men, ministers, lawyers and bankers, it will give you the experience of young people who came to us with limited means, and in a short time in our school what their success and future has meant to them. We know you are bound to be interested, so ask us to furnish you the proof. Our large, beautifully illustrated catalogue is free, if you will fill out this coupon and mail to us.

Tapioca jellied fruitis can be made by cooking one-half cupful of tapioca in one pint of boiling water until transparent; then add any pretty fruit desired, cool and serve with cream.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make This Beauty Lotion Cheaply For Your Face, Neck, Arms and Hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Arrests for drunkenness in Minneapolis in June (wet) numbered 507. In July (dry) the number was 132.

KINDERGARTEN HELPS FOR PARENTS

TEAM WORK FOR CHILDREN
(By Emily V. Hammond.)

As a child I learned a Latin quotation which has always stood by me and which I have had occasion to use with grown-ups as well as with children. The translation is this—"In essentials unity, in non-essentials, charity." If all team work could be carried on in the spirit of this wise counsel, think of the petty quarrels and big feuds that might be avoided! We mothers cannot begin too early to teach our children to "play fair" and to work together harmoniously; to emphasize the essentials of life and not to quarrel about the non-essentials.

In the kindergarten the children learn in a very practical and effective way, although they probably could not state in so many words, that the chain is only as strong as the weakest link. If Tommy is disobedient and pulls Sally's hair, then the harmony of the circle is suddenly broken. The other children are quick to appreciate this and when the next one is called upon to select a partner for a game, you may be sure Tommy is not chosen. Soon he begins to feel his exclusion, and it does not take him long to put cause and effect together. In the future he will think twice before pulling Sally's hair!

Treatment such as this proves far more effective than the kind usually administered by an older person. Most children are born with a keen sense of justice, and do not protest at having to suffer the just consequences of their wrong-doing, especially when meted out to them by a tribunal of their peers. This suggests that it is often a wise plan to keep hands off and let the boys and girls adjust their own differences. This helps to promote a good team spirit.

When the children leave kindergarten it is most important to foster their love of playing and working to-

gether in groups. I know of no better organizations for the purpose than the Boy Scouts and Girl Scouts. The former takes boys of 12 and over and the latter starts with girls of 10. The Girl Scouts also have an organization known as Brownies which looks after little girls from 6 to 10. Any parent wanting to know more about the Scouts can obtain their handbooks at headquarters; Boy Scouts of America, 200 Fifth Ave., and Girl Scouts, 527 Fifth Ave., New York.

The Scout motto, "Be Prepared," is a great incentive to boys and girls alike to get together. To make the troop strong each boy and girl must develop strength of character, for we cannot have any weak links in the chain. With an efficient captain in charge to hold aloft a high ideal of service there are no limits which the Scouts may not attain.

It will be a fortunate day for this country when there are kindergartens

and Scout troops in every city and village of the land. These and kindred organizations will help to unite children in all walks of life. They will instill principles of freedom and justice and, above all, will inspire, through work and play, a spirit of comradeship which is indispensable to the welfare of a great democracy.

Help to reach all the parents of the country by cutting this out and passing it on to a friend.

Habitual Constipation Cured in 14 to 21 Days

FOR WHAT DID THEY FIGHT AND PAY?

(The Dearborn Independent).

In the battle of St. Mihiel, 550,000 American soldiers fought, and many of them died. Kindly in civilian life, they proved themselves fierce fighters when after the foe.

An idea of the size of the struggle can be obtained by comparing it with the battle of Gettysburg, in which 100,000 Northern soldiers fought.

The Meuse-Argonne struggle lasted 47 days, and 1,200,000 American soldiers risked their lives, many of them

making the supreme sacrifice.

America had 2,086,000 soldiers in France, of whom 1,390,000 saw battle service, more than 50,000 dying in battle, a total of 122,500 overseas having died.

There were 236,000 American soldiers and sailors wounded on the western front.

No tribute is so great as to do justice to the gallantry shown by the boys who turned the tide of battle and helped our bleeding Allies to a victory, the French soldiers who died in the struggle having numbered 1,385,000 and the British 900,000.

The war cost America much more, very much more, than \$1,000,000 an hour for two years.

The people have paid and are paying taxes on nearly everything; if not directly, then indirectly, on what they wear and eat and in rent.

The nation's net debt as a result of the war is about \$22,000,000,000, or about \$1,000 for every family, which finally must be paid by the toil of the family, for no matter who pays it directly, in the end it comes to the consumer; and with interest added it will amount to more than \$2,000, nearer \$3,000, by the time it is paid.

What was the object of all this sacrifice of life and treasure?

What do we owe to the men who went over and risked their all?

What do we owe to the dead in the fields of France?

What do we owe those who came back maimed for life?

What do we owe to those who gave generously of their wealth and time?

What do we owe humanity?

Do we owe them an assured peace for the future or do we owe them endless bickering?

Those who sacrificed over there cry out that such a sacrifice shall never be forced on humanity again.

Those who suffered in the trenches would have themselves, their children and their children's children spared

CUTTIN' DOWN EXPENSES

seems to be a favorite pastime with mothers nowadays, for regular hair cuts are going up with the prices on the rest of things.

If you're going to cut the boy's hair at home, for goodness sake take pity on him and supply yourself with a good, sharp pair of scissors.

Don't forget in the full line of hardware we handle there are plenty of good scissors for you to select from, as well as a big lot of other high-grade home necessities.

Henne & Meyer Co.

Stores At ROCKDALE, CAMERON, THORNDALE, BUCKHOLTS.

from such an ordeal again.

They know the fierceness of the death-dealing instruments devised by man; they know that another world conflagration, carried on with the knowledge gained in this, would all but wipe out humanity.

We all know that before this war we were told that great armaments worked for peace, and we know now that that was not true; that they meant death to mankind.

We have learned that peace can be maintained throughout the world only through an intelligent understanding among the nations.

And the voices of those who have gone and those who remain cry out for such an understanding.

That understanding, written into the League of Nations, is being accepted in Europe.

Our Constitution gives the United States Senators the power to accept or reject the understanding accepted

by other nations and before this government for action.

Each Senator has a right to use his own judgment, to come to his own conclusion, in the matter, but he has no right to push aside Humanity's cry, and to base that judgment, to come to that conclusion, on the line of party expediency.

There was no partisanship in the fight on the French front; there was no partisanship in the buying of Liberty Bonds or giving to patriotic funds; there should be no partisanship in the contest in the United States Senate; but, unfortunately, there is.

THE FLYING STATESMAN.

A congressman observed one day an airship in its flight, Said he, "Oh, let me sail away; I don't care where we light!"

The public answered with a sigh: "Our minds you sadly fret! Oh, please do not attempt to fly, You're not an angel yet."

—Exchange.

GALLERY WIT.

An old-timer was reminiscing at the club. "Speaking of famous singers," he said, "I remember being present at a concert at which Madam Nilsson was to sing, but she was indisposed. The foreigner who announced the fact said: 'Madam Nilsson ees a little horse.'"

NEW AIRPLANE SPEED RECORD IS SET

New York.—A new official world's record for speed, 184 miles an hour, has been made at Villa Coublay, France, by a Spad single seater airplane, according to a cable message to the Manufacturers Aircraft Association. This speed, it is claimed, is twenty miles faster than any other official record. The Spad was equipped with a 300-horsepower Hispano-Suiza motor. A similar type of machine, carrying a passenger weighing 160 pounds, made 175 miles an hour. The name of the driver was not given.

"T. R." Insulation Beats Re-insulation

"T. R." stands for "Threaded Rubber" of course—the insulation found only in Willard Batteries with the red trade-mark. The insulation that lasts as long as the plates, so that 90% of those who buy The Red Trade-Marked Willard have no re-insulation bills to pay.

There's a lot more of interest to you on this battery question. Come in and talk it over.

RADIATOR LEAKS

Radiator leaks are often very hard to locate, especially when they are little ones. In these circumstances empty the radiator completely and blow smoke into it through a jeweler's blowpipe. This will discover the location of the leak. A little soft solder on the end of a wire will enable you to reach the places where common soldering can be carried out.

GLYCERIN FOR

SLIPPING CLUTCH

Glycerin of the best quality applied to the leather facing of cone clutches gives the "take hold" which is often lacking. If the clutch is fierce in taking hold, add a little graphite to the glycerin.

If it's in The Herald, it is news.

You Can't Ride Unless You Can Start

We inspect your battery free every two weeks and put in the distilled water necessary to keep the battery and lighting system right.

If recharging or repairs are needed we make them for a reasonable charge.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

CITATION

THE STATE OF TEXAS)
County of Milam)
To the Sheriff or any Constable of Milam County—Greeting:

You are hereby commanded to summon Andrew Williams by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 20th judicial district; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said Milam County, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 10th day of November, 1919, the same being the 2nd Monday in November, 1919 then and there to answer to a petition filed in said court on the 24th day of November, 1919, in a suit, numbered on the docket of said court No. 8017, wherein Mollie Williams is plaintiff and Andrew Williams is defendant. This suit is for divorce upon the ground of more than three years abandonment of plaintiff by the defendant with intention of permanent abandonment commencing in October 1915, plaintiff praying for dissolution of the bonds of matrimony existing between her and defendant and for costs of suit and general and special relief, etc.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon showing how you have executed the same.

Witness: PENN WOLF,

Clerk of the District Court.

Milam County, Texas.
Given under my hand and the seal of said court, in Cameron, this the 24th day of September, A. D. 1919.

CAM-HI ANNUAL

After much consideration and thought as to whether the Cam-Hi Annual of 1919-20 should be published, the senior class arranged a meeting to vote on the matter, and the vote was unanimous for its publication. Since the Seniors are largely responsible for its publication, they wish to make it a splendid success, and the very best edition that has been published. There is enough talent in the class to do these things,

if each senior will do his part toward this end.

The Senior class has decided to undertake the publication of the Annual, taking into consideration some very important matters. If an annual is a complete success, it should be gotten out on time. The class of 1919-20 surely want a successful annual, and to accomplish this, they must get it on time, so that it will be ready for distribution by the last of May, and not a month later. Another matter to be considered is that the most strenuous efforts should be put forth to improve the annual as the years go by. Unless improvements are being made, there is a great deal lacking, and much has not been done that should have been, not only in regard to the annual alone, but the school as a whole. Then, too, it must be understood that the annual is not for the Seniors alone, although they are responsible to a great extent for its success; but it is for the whole school, and each high school student has an interest in it, and carries a responsibility. Every true and loyal student should be willing to do almost any kind of work to make the required dollar for his annual, because he is not only securing an annual for himself, but is also helping to make the Cam-Hi a success.

In the class meeting, the following officers for the annual were elected: Editor-in-chief, Thomas Hefley. Assistant Editor-in-chief, George Hooks.

Associate Editors, Terry Wiley, Marie Plate, Gladys Blaylock. Annual Representatives, Howard McDonald, Henry Tracy. Class Prophet, Pat Kennon. Class Historian, Winnie Yoe. Calendar Editor, Katy Cone.

Girls' Athletic Editor, Minnie Mae Foster.
 Boys' Athletic Editor, Thompson Kemp.
 Cartoonist, Gaston Barmore.
 Class Joker, Leland Denson.
 Society Editor, Juanita Caldwell.

MEMBER OF THE JUNIOR CLASS WINS FAME

Joyce Cox, a well known member of the Junior Class, won great fame through his ability to sell War Savings Stamps during the War Savings Stamp campaign. He sold over six thousand dollars worth, and received as a reward for his deed a medal. The Junior class takes great pleasure in claiming Mr. Joyce as a class member. Cam-Hi should be proud of him.

ORGANIZATION OF THE CAM-HI ORCHESTRA

Last Tuesday afternoon the Cam-Hi Orchestra was organized with a membership composed entirely of high school students.

With plans for a large high school band this winter, the idea of having a large orchestra was given up. With Mr. Crawford as director, we hope to have the best high school orchestra in the state. There are ten members in this organization, and each one is an experienced musician. The membership is as follows:
 Agnes Henderson, Piano; Billie Clark, Violin; Olive Henderson, Violin; Charles Pardo, Clarinet; Charlie Frank Green, Clarinet; Leland Denson, Cornet; Lee R. Tag, Cornet; Willie Parma, Baritone; Eugene Matula, Bass; Walter Henriksen, Traps.

FRESHMEN VISIT ICE PLANT

On Wednesday afternoon, chaperoned by Miss Williams, the Freshman class visited the ice plant. Mr. Lawrence conducted us, then explaining the system of making ice. Under the direction of Mr. Crawford in science and Miss Work in English, the Freshmen class is to write this week a theme on the water system of Cameron. The three best themes on this subject will be chosen and published in the Cam-Hi Weekly two weeks from today. This is only one of a series of papers dwelling on civic problems to be worked up by the Freshmen class this year, and the class hopes to make many visits of this sort.

IF YOU WERE A STUDENT OF CAM-HI

Would you offer any one of the following excuses for being tardy:
 I had eleven cows to milk and feed, four mules to feed, two hogs to feed, and four calves to feed.
 I had to dig some potatoes out in the garden, and got my shirt dirty and had to change it.
 I went to the barber shop and got

a hair cut, therefore, I am tardy. (These are some of the excuses that have actually been given.)

First Freshman: August Knipp spells ridiculously.
 Second F.: Does he? Well, if he does, I'll bet it is about the only word he can spell, so far as my observation goes.

Mr. Crawford: What kind of plants flourish in hot climates?
 Harleigh McGregor: Ice Plants.
 We sometimes wonder how the fish and the chickens are agreeing. We don't hear anything more from them.

Miss Bass reading erroneous selections from the autobiographies of students, "And what is the matter with this sentence: 'Having learned a great deal of English since that time'."

Voice in rear of room: "It is a false statement."

Mr. Crawford, in discussion of adhesion and cohesion in Physics: White, by what force does a stamp stick on an envelope?
 White: By the glue.

THE GIRLS' CLUB

The Girls' Club met on Thursday, October 9, 1919, with a large attendance. The house was called to order by the president, and then some rules which the cabinet had made were read over and voted on by the club. Although the rules were strict to a certain extent, they were satisfactory to all.

A name for the club was decided on. "The Girls' Club" was the most pleasing and appropriate. The colors purple and white were chosen for the club colors, and the flower adopted was the rose.

After business was finished, the following program on friendship was carried out:
 "Our opportunity for friendship"—Miss Frances Hefley.
 "The business of being a friend"—Miss Earl Bragg.

"The house by the side of the road"—A poem—Miss Louise Denson.
 The program was well carried out and it is quite evident that the "Girls' Club" will be a great success. All the girls are working together and are displaying great interest in the meetings of the club, committee meetings, and programs.

MISS ADAMS ENTERTAINS

On Saturday evening, October 11th, Miss Louise Adams entertained a number of her girls friends at her home on Hefley Heights. The amusements provided were candy making and corn popping. Later in the evening, fruits were served. Much excitement and laughter was experienced when Miss Louise Denson devoured a red hot pepper in her candy, which was placed there by Miss Bessie Wiley. We regret to say that Miss Denson used nearly a pound of fresh butter in trying to stop the burning in her mouth.

Present at this delightful function were: Misses Kitty Cain, Tennie Mae Bass, Louise Denson, Bessie Wiley, Dulce McCall.

Joe Mohler: Jack, do you know anything that has happened to the Sophomore class that I could write?
 Jack Taylor: Yes. Bob Gillon got a hair cut.

Latest—Agnes Chambers, singing a song entitled "He who drinks Beve"

has no kick coming."

In Senior class meeting while electing officers, Pat Kennon gets up, "Mr. Chairman, I nominate Miss Grace Mangum as class flower."

ATHLETICS FOR PAST WEEK

The Cam-Hi rabbits were busy on the gridiron every afternoon for the past week hitting 'em hard. Through the efforts of Mr. Cameron, our coach, the rabbits have been developing their ferocity of tackling and general rough work. It is doubtful that we will have a game this year unless we play in boats. Our game for Friday was called off at the last minute. All the rabbits had assembled at the state and had purchased tickets, when Cal well notified us that they could not play on account of the rain. All called in their tickets and left with a growl. After the rain subsided, our manager called Caldwell and asked to play them Saturday the 11th, but failed for they said the ground would be too wet. He then secured a game for Tuesday. Mr. Cameron has sent them an invitation to play on the home ground, rain or shine. Although we haven't heard from them, we expect to go Tuesday.

GIRLS' BASKET BALL TEAM

The girls' basket ball team of Cam-Hi has entered into the year's work with great interest, and is going to carry off all the games. With the hearty approval of Superintendent Kidd it has become a member of the inter-scholastic league. Plans have been made to have a goal prepared and the court cleaned, and also enlarged. The coach, Miss Carroll, is very efficient and a well developed team has been organized.

WEEKLY EXPLOSIVES

It is our idea that some of the girls are determined not to be tardy. They have bobbed their hair so that they will not have to lose time in combing it.

Mrs. Solomon says, that if she were a Senior she would stir up some privileges.

The Cam-Hi Widow has been disappointed in love. She was determined to catch a fish, but she has lost hope. One little fish girl has all the fish boys on the go.

FRESHMEN PARTY

On Friday, October 10th, Miss Alicia Lucile Garrison entertained the Freshmen class at her home. There was also a few from the other classes present. Though it was raining hard, tea couples were there.

When they first arrived, games were played. Later stroll cards were given. The rest of the evening was spent in dancing. Mr. Leland Denson, with cornet, and Miss Minnie Nell Blaylock furnished the music. Later in the evening ice cream and cake were served. All enjoyed themselves.

CAMERON, TEXAS

HAS YOUR WIFE THESE CONVENIENCES?

Every kitchen should be arranged for convenience and shelves and racks provided for the kitchen utensils. Then an oil stove and fireless cooker should be provided. Probably the most important labor-saver of all is a small gasoline engine fitted up with a line shaft to furnish power for the washing machine, the wringer, the churn, the separator, the vacuum cleaner, the dynamo, the pump and so on. This is an age of power ma-

chinery rather than human muscle, and our farm women must fall in line.

A modern water system, a bathroom, aseptic tank and a private electric lighting plant make the farm residence a real home. The cost of such equipment varies, but thoroughly reliable equipment of this kind may be installed at a cost well within the reach of many thousands of prosperous farmers.

There are many water supply systems that may be used on the farm. A very simple and inexpensive system consists of a sink in the kitchen

with a drain pipe to carry the water away. A force pump is placed at the well or cistern which is so connected that water can be drawn at the well or cut off there and the water forced into the house. A pipe conducts the water from the pump to an elevated tank. Water may be piped to different parts of the house from the tank.

A new fly swatter is a cone of wire that is shot out from a pistol by a spring, its shape making the escape of an insect almost impossible.

HINTS TO THE CAR OWNER

Don't Exceed Speed Limits.

If your engine doesn't start quickly make sure that gas and sparp are right.

Practice shifting gears until you know instinctively from the car's speed just when you should make each shift.

Don't attempt to shift gears without first releasing the clutch.

Don't fail to appear in court for trial on the date set, in case of arrest.

Dim your lights when approaching another auto on the road.

If you use battery for ignition and your battery is weak, do not use self-starter to crank the engine and expect good ignition at the same time. Better crank the engine by hand and save as much current as possible for ignition.

Sometimes preignition is caused by overheated spark plugs. Don't let the plug project too far into the combustion chamber. Use the proper length plug for your type engine.

An Ohio man has invented a machine for gathering grasshoppers on a wholesale scale, consisting of a motor tricycle on the front of which is a funnel through which the insects are drawn by a revolving fan in a box.
